

**ARRA Quarterly Reporting form**

**General Information**

Allegheny County will utilize its EECBG formula funding to invest in eligible energy efficiency activities that will result in substantial reductions in energy usage and costs; deliver immediate and sustained reductions in the county's CO2 emissions, reduce maintenance costs and enhance reliability and create green jobs. A primary goal for Allegheny County is to invest its EECBG funds through eligible activities that will provide solutions to long-standing energy cost issues. Allegheny County proposes to do two energy saving programs: The Energy Savings Performance Contracting (ESPC) Program and the Allegheny County Energy Program for Municipalities (ACEPM).

<b>Grant Classification</b>	<b>Primary</b>	<input checked="" type="checkbox"/>					
Please designate grant classification
