Definitions

Unless the context indicates otherwise, the following capitalized words are defined as follows for purposes of this RFP:

1. **AA**: Alcoholics Anonymous
2. **Agreement**: A contract negotiated between Allegheny County and the Successful Proposer to provide the Contract Services
3. **Allegheny County**: A home rule county and political subdivision of the Commonwealth of Pennsylvania
4. **Case Manager**: A staff member who helps Residents develop and fulfill a Recovery Plan
5. **CCBH**: Community Care Behavioral Health
6. **Contract Services**: The specific services which the Successful Proposer agrees to provide to the County in response to this RFP as more particularly described in the Scope of Services in the Agreement
7. **DDAP**: [Pennsylvania] Department of Drug and Alcohol Programs
8. **DHS**: [Allegheny County] Department of Human Services
9. **House Manager**: The staff member who is responsible for oversight of the Recovery House
10. **Justice Related Services**: An array of supports designed to work with the Allegheny County Jail, District Courts, behavioral health and other community service providers, to assist persons with mental illness and/or co-occurring mental illness and substance use disorder who encounter the criminal justice system
11. **MAT**: Medication Assisted Treatment combines behavioral therapy and medications (including Methadone, Vivitrol and Suboxone) to treat substance use disorders
12. **NA**: Narcotics Anonymous
13. **OTC**: Over-the-counter medications
14. **PCPC**: Pennsylvania Client Placement Criteria
15. **Proposal**: A completed Response Form, with specified attachments, submitted in response to this RFP
16. **Proposer**: The non-profit organization, or for-profit organization or business submitting a Proposal in response to this RFP
17. **Recovery House/Recovery Housing**: Sober, safe and healthy living environments that promote recovery from alcohol and other drug use and associated problems
18. **Recovery Plan**: A personalized plan developed by the Resident and Case Manager that describes the steps to support recovery including treatment, peer supports, a plan to locate permanent housing and find employment, and identification of other unmet non-treatment needs
19. **Resident**: An individual participating in a Recovery House program
20. **Response Form**: The Word document in which Proposers respond to requested information about this RFP
21. **RFP**: Request for Proposals
22. **Successful Proposer**: The Proposer(s) selected by the County to provide the Contract Services
The RFP at a Glance

**Purpose**

Allegheny County is soliciting Proposals from one or more qualified Proposers to provide Recovery Houses, that is, sober, safe and healthy living environments that promote recovery from alcohol and other drug use and associated problems. Recovery Houses being sought by the County through this RFP must provide temporary housing and case management that will connect participating individuals with treatment and peer-to-peer supports, locate permanent housing, find employment and meet other needs for their path to recovery. The County envisions that the Recovery Houses being sought by this RFP will serve up to 57 individuals for no longer than 90 days at a given time and at least 400 individuals per year.

**Award details**

DHS intends to enter into one or more Agreements to provide the Contract Services. Total funding for the Recovery Houses shall not exceed $817,000 annually. DHS expects there may be more than one Successful Proposer and that the funding will be divided among Successful Proposers according to the size of a Recovery House. DHS expects to fund five or more Recovery Houses.

**Who can apply**

Non-profit organizations and for-profit organizations or businesses may apply. Current providers of Recovery Housing who wish to continue their Recovery Housing program must submit a Proposal in response to this RFP.

**What we don’t want**

We are not interested in programs that refuse to serve anyone based on use of medication to support their recovery, clean time or criminal history.

**What’s important to us**

It is important to us that people in Allegheny County with substance use disorders have a supported living environment available to serve as a step between inpatient drug and alcohol treatment or the Allegheny County Jail (where they received drug and alcohol treatment services) and living independently in the community. This “step between” is Recovery Housing, which provides a safe, stable and recovery-oriented living environment and supportive services to participating individuals so that they can stabilize in their recovery before they begin managing their treatment independently. It is also important to us that a person’s recovery is not jeopardized by homelessness. Recovery Housing serves as an opportunity for people to identify a permanent home after discharge from inpatient or exit from jail drug and alcohol treatment program.

**Timeline**

Deadline for Proposers to submit questions is Monday, April 17, 2017.
Proposals must be submitted by 3 p.m. Eastern Time on Monday, April 24, 2017. Proposers will be notified of their selection status in June 2017.

**Who we are**

DHS is issuing this RFP on behalf of Allegheny County. DHS is the largest department in Allegheny County government, providing publicly-funded services to more than 200,000 people annually, in areas including child welfare, behavioral health, aging, intellectual disability, homelessness and community services.

*The issuance of this RFP and the receipt of any Proposals does not obligate the County to enter into an Agreement. The County reserves the right at all times to reject any and all Proposals.*
Section 1: Why We Are Issuing this RFP

Since 2006, Allegheny County has experienced fatal overdose rates higher than those seen throughout Pennsylvania and many other states in the country. The rash of overdose deaths highlights a significant public health crisis and the need for increased use of effective strategies to respond to a growing opioid epidemic. The DHS Office of Behavioral Health, Bureau of Drug and Alcohol Services\(^1\) identified a multi-pronged strategy to mitigate the effects of the opioid epidemic. This strategy includes expanding access to treatment for substance use disorders.

Too often, people with substance use disorders exit inpatient SUD treatment or leave the Jail, having received treatment services while incarcerated, to living environments that jeopardize their recovery or to a state of homelessness. Research shows that a continuum of care model, focused on long-term management of recovery within a broader recovery-oriented system of care, can help people maintain recovery. Long-term recovery management requires supports for housing and employment as well as access to peer support groups, such as Alcoholics Anonymous (AA) and Narcotics Anonymous (NA). Individuals who are in recovery and struggling with housing insecurity have few housing options that are supportive to their recovery needs. DHS wants to strengthen its continuum of services to individuals by investing in Recovery Housing.

Section 2: What We Are Looking For

DHS intends to enter into a contract with one or more Successful Proposer(s) to provide Recovery Houses that can serve up to 57 individuals at any given time and 400 individuals annually. A Recovery House is a safe, supportive, drug- and alcohol-free residential environment where individuals in recovery from unhealthy substance use (henceforth referred to as Residents) can live together as a community while they transition between residential treatment or other institutional settings (e.g., the Jail) to living independently. Recovery is defined as abstinence from alcohol and other non-prescribed drug use and improvement in one’s physical, mental, spiritual and social wellbeing. Recovery Houses are part of the recovery-oriented system of care.

When individuals exit inpatient treatment or the Jail to homelessness or to a living environment that jeopardizes their recovery, treatment becomes secondary to work, or they may feel forced to return to old lifestyles and ultimately relapse and/or recidivate to jail. Recovery Housing provides Residents with the opportunity to focus on the supports needed to establish a foundation in treatment, to build a support network and a plan for maintaining recovery, and to find a permanent place to live that is conducive to recovery. Individuals build resources while living in Recovery Houses that will continue to support their recovery as they transition to live independently and productively in the community (e.g. life skills, employment).

2.1 Target Population

\(^1\) The DHS Office of Behavioral Health, Bureau of Drug and Alcohol Services serves as the coordinating entity for substance use disorder treatment and prevention in Allegheny County as it relates to state and county funding for these services, including Medicaid and HealthChoices. Housed within this bureau is the Single County Authority (SCA) for Allegheny County, assigned by the Pennsylvania Department of Drug and Alcohol Programs (DDAP) to plan, coordinate, programmatically and fiscally manage and implement the delivery of drug and alcohol prevention, intervention and treatment at the local level.
Recovery Houses are ideal for individuals who are transitioning out of institutional settings and are not yet ready to live on their own, but who are motivated in recovery and can thrive in an environment providing limited structure. Between ten and 20 Residents may live in a Recovery House at a given time. DHS expects to serve at least 400 individuals with the funding offered through this RFP.

The target population includes:

- Individual adults transitioning out of inpatient drug and alcohol treatment facilities
- Individual adults exiting the jail with a substance use disorder who have participated in drug and alcohol treatment or intervention services in the jail
- Individual adults who are in recovery, but who are living in an environment that puts their recovery in jeopardy

Individuals are not included in the target population if:

- They are unwilling or unable to support the recovery culture of the Recovery House by adhering and upholding the house rules (see Section 2.2 D: Rules and Requirements)
- Their needs exceed the scope of service provided (e.g., the individual would be more appropriate for inpatient treatment)
- They pose a threat to themselves, to others or to property
- They are engaged in criminal activity
- They are children (ages birth to 17 years). Recovery Housing is for adult individuals (ages 18 and older). (DHS offers family inpatient treatment and family short term housing for families with drug and alcohol needs.)

A. Referrals

The Successful Proposer(s) must accept individuals into Recovery Housing as referred by DHS, the Allegheny County Jail, or a licensed drug and alcohol treatment or Justice Related Services provider under contract with the County. The Successful Proposer(s) are required to accept referrals regardless of use of Medication Assisted Treatment (MAT),\(^2\) criminal history, credit worthiness or other barriers. Admission is non-discriminatory with regards to race, religion, color, nationality or sexual orientation. All individuals entering Recovery Housing must have completed a Level of Care Assessment to determine if they need treatment in addition to Recovery Housing. A Level of Care Assessment is a face-to-face interview with an individual to ascertain the severity of alcohol or other drug use and the degree of impairment because of that use in order to determine proper placement and treatment for the individual. The completed Level of Care Assessment will be shared with the Successful Proposer(s) at time of referral.

2.2 Housing

A. Length of Stay

In a Recovery House, the Successful Proposer(s) must provide Residents with a safe, sober place to live in a supportive, community environment. Residents may stay in a Recovery House for a maximum of 90

---

\(^2\) [https://www.samhsa.gov/medication-assisted-treatment](https://www.samhsa.gov/medication-assisted-treatment)
days (consecutively or non-consecutively) throughout the fiscal year (June 30 to July 1).

B. Rental Payment

Residents of a Recovery House are not required to have income; however, if a Resident has income, they must contribute 15 percent of their total income to the Successful Proposer(s) each month as rent. By paying a portion of their income, the Resident takes responsibility for rent, while having the opportunity to build savings, begin repayment of court cost/fines and repay debts. The Successful Proposer(s) is responsible for collecting the rental payment each month from Residents with income.

C. Intake and Orientation

Within 24 hours of a Resident’s arrival at a Recovery House, the Successful Proposer(s) must undertake the following with each Resident:

- Document the Resident’s medical history, drug and alcohol history (including substances most frequently used, length and patterns of use, dates of last use and any continuing care recommendations), and personal history.
- Explain and share in writing the house rules of the Recovery House. The Resident must sign a form, indicating that they agree to the house rules.
- Pair each Resident with a Case Manager, a staff member of the Successful Proposer who will help the Resident develop a Recovery Plan and support the Resident in fulfilling the Plan (A Recovery Plan is a personalized plan developed by the Resident and Case Manager that describes the steps to support recovery; see a full description of a Recovery Plan in Section 2.3: Supportive Services).
- Clearly describe and show to Resident a written policy stating that Residents can choose their own path to recovery, including treatment and supportive services. This policy must address real or perceived conflicts of interest between house staff and programs to or from which Residents may be referred.
- Discuss and have the Resident execute a Drug and Alcohol Consent to Release Information Form (see Section 2.5: Records, Confidentiality and Reporting)
- Share the policy on the use of Over-the-Counter (OTC) and prescription medication.3
- Share the schedule of weekly Recovery House meetings.
- Share information regarding emergency procedures and contact information for the House Manager, the staff member who is responsible for the oversight of the Recovery House. The information must include emergency evacuation protocols and location of fire extinguishers, fire alarm pull-stations and evacuation maps and the location that the contact information and emergency numbers are posted. All of this information must be located in a public area of the Recovery House.

---

3 Both over-the-counter (OTC) and prescription medications can be abused and jeopardize a Resident’s recovery. However, not taking medications as prescribed can undermine a Resident’s recovery. The Successful Proposer(s) must establish and clearly communicate its policy and procedures about both OTC and prescription medications to Residents at intake. These policies and procedures should be designed to maintain a safe living environment and support the recovery of everyone in the home, including the Residents taking the medications. The Successful Proposer(s) must also have protocols in place regarding security of medication. Under Pennsylvania law, the only persons legally permitted to administer medication (controlled substances) are physicians, physician’s assistants, registered nurses and LPNs. All drugs that are to be self-administered must be packaged in a manner complying with the Poison Prevention Packaging Act of 1970 and all current regulations, stemming from said Act.
• Share the House’s overdose prevention policy for the Residents in the Recovery House. An overdose prevention policy must include an overview of what an overdose is, what happens when a Resident overdoses, what factors increase the risk of overdose, how to identify the symptoms of an overdose and how the Successful Proposer(s) will respond if a Resident overdoses. Residents must sign a statement that they have read and reviewed the overdose prevention policy. See Appendix A for information on overdose prevention which can be utilized to develop an overdose prevention policy.4

• Explain if/how the Successful Proposer(s) will collect rent and document rent collection.

• Share the schedule of household duties (e.g., cleaning, vacuuming), explain how household duties are designated and clearly outline the responsibilities of the Resident in terms of daily chores and kitchen/food clean-up.

• Explain how a Resident reports the need for House repairs and how repairs will be made within 48 hours.

D. Rules and Requirements

The House rules must be posted in a common location in the Recovery House. The Successful Proposer(s)’s House rules must include the following:

• Residents may not use alcohol or drugs on or off the premises of the Recovery House. The Successful Proposer(s) may enforce this policy by using random urine testing and/or breathalyzers. In the event of a relapse, the Successful Proposer(s) may decide to discharge the Resident from the Recovery House (after a thorough evaluation) and connect the Resident to a level of support that will help them re-initiate recovery.5

• Residents must contribute a percentage of their income (if they have income) to the Recovery House.

• Residents shall not stay in the Recovery House for longer than 90 days.

• Residents must attend weekly, mandatory recovery support meetings offered by Recovery House (i.e. 12-step meeting, relapse prevention).

• Residents must build and participate in a Recovery Plan. The Recovery Plan will include linkages to treatment, peer supports, employment and housing. Their Case Manager will verify the Residents’ participation in the activities outlined in their Recovery Plan.

• Residents shall not act violently or threaten the safety of other Residents or staff.

• Residents must abide by the policies about visitation of friends and relatives.

• Residents must abide by the policies concerning OTC and prescribed medication administration and storage.

• Residents will be discharged if they do not follow the rules and requirements. The Successful Proposer(s) must notify the Resident, in writing, when the Resident is terminated involuntarily. The notice of discharge from the Recovery House must include the specific reason for the discharge and must be signed and dated by the House Manager or the House Manager’s authorized designee. A copy of this notice must be maintained in the Resident’s record. The Resident must have the opportunity to appeal their discharge from the Recovery House through

5 The intent of discharging a Resident from the House is not to “punish” a Resident for relapsing but to protect the health and well-being of that Resident and the Recovery House community as a whole. Relapse endangers the life of the Resident and the lives of everyone else in a Recovery House.
a formal grievance procedure developed and documented by the Successful Proposer(s). The Resident must be informed of this right of appeal and the appeal process in the discharge notice itself.

E. Physical Standards for a Recovery House

The Recovery House must have adequate space, facilities and equipment to meet the needs of the Residents. The Successful Proposer(s) must maintain all Recovery House utilities, major appliances, plumbing and electric service systems in good working order and safe operational conditions. The Successful Proposer(s) must post certificates of occupancy in common areas and abide by all applicable local building and fire safety codes. If the Recovery House is rented or leased, the Successful Proposer(s) must have written permission from the owner to operate a Recovery House and submit it as part of their Proposal.

The Successful Proposer(s) must make routine and emergency repairs in a timely manner to the Recovery House and must maintain written procedures for Residents to report the need for repairs to the House Manager. The Successful Proposer’s House Manager will be responsible for ensuring that repairs are made within 48 hours after a report is made. The Successful Proposer(s) must have a plan in place to transfer Residents to alternative safe housing in the event that repairs to critical Recovery House systems (e.g., heating, water, electric) cannot be completed in a timely manner.

Location

Recovery Houses should be located in Allegheny County and in areas convenient to public transit and groceries. The Successful Proposer(s) must be responsive to neighbor complaints.

Building Exterior and Grounds

The Successful Proposer(s) must maintain the grounds of the Recovery House in a satisfactory manner. Exterior exits, stairs and walkways must be lit at night. Trash must be stored in covered containers and removed at least once per week.

Common Living Area

The Recovery House must contain at least one furnished common living area for the free and informal use of Residents and their guests. The space must be large enough to accommodate Recovery House meetings.

Bedrooms

Each Resident must have a bed with a solid foundation and a mattress in good condition, a pillow and bedding appropriate for the temperature of the Recovery House, and a storage area for clothing. A bedroom is defined as an area enclosed by floor to wall ceilings (not partitions or half walls). No more than four Residents may share a bedroom. Each single bedroom must have at least 70 square feet of floor space. Each shared bedroom must have at least 60 square feet of floor space per Resident. When bunk beds are used, each bedroom must have at least 50 square feet of floor space per Resident. The Resident must be able to sit up in bed, have a securely attached ladder capable of supporting a Resident and railings on each open side of the bunk.
Each bedroom must have direct access to a corridor or external exit. Sole entrances to stairways or basements may not be located in a Resident’s bedroom. Each bedroom must be ventilated by operable windows or have mechanical ventilation. Each bedroom must have a window with a source of natural light. Bedrooms located in a basement must have wall, floor and ceiling coverings (e.g., tile, linoleum, paneling, dry wall) and have a protective fire wall between the Resident and furnace. Areas where beds are placed must be in compliance with fire safety codes.

**Bathrooms**

For every eight Residents in a Recovery House, there must be at least one bathroom with a toilet, sink and shower or tub that is maintained in a sanitary manner. Each bathroom must have at minimum a sink, wall mirror, soap dispenser, and either paper towels or a mechanical dryer. Bathrooms must have hot (not above 120 degrees Fahrenheit) and cold water. Residents must have privacy in bathrooms (e.g., toilets with doors, showers and bathtubs with curtains). There must be slip-resistant surfaces in all bathtubs and showers. Each bathroom must have ventilation, either with an operable exhaust fan or an operable, screened window. Toilet paper must be available at each toilet at all times.

**Food and Kitchen**

There must be an on-site central preparation area or kitchen in which Residents can prepare their own food that is in a good state of repair and includes a refrigerator, sink, stove, oven and cabinet space for storage. The Successful Proposer(s) must have policies in place and shared with Residents about cleaning food preparation areas, appliances, storage areas and utensils. Successful Proposer(s) are responsible for ensuring that Residents are food secure.

**Heating and Cooling**

The Recovery House must maintain an indoor temperature of at least 65 degrees Fahrenheit in the winter. When indoor temperatures exceed 90 degrees, mechanical ventilation such as fans or air conditioning must be provided by the Successful Proposer(s).

**Washer and Dryer**

A washer and dryer must be made available for the use of Residents.

**Safety Procedures**

The Recovery House must be kept free of rodent and insect infestation. Smoking must be limited to designated smoking areas, outside of the Recovery House. The Successful Proposer(s) must have written procedures in place and shared with Residents about what to do in cases of emergency. See Appendix B for information about Fire Safety.

**F. Naloxone (Narcan)**

The Successful Proposer(s) must have Naloxone (Narcan) in the Recovery House at all times. Staff must be trained in the use of Narcan.
G. Site visits

DHS may elect to visit the proposed Recovery House site to determine if the proposed site meets the standards outlined above.

2.3 Case Management Services

The Successful Proposer(s) must provide Residents with case management services. Case management staff of the Successful Proposer(s) must encourage each Resident to develop and participate in their own personalized Recovery Plan. The staff and Resident will create the Recovery Plan together within 24 hours of the Resident’s arrival. Staff must check-in with Residents about their progress weekly and update the Recovery Plan with the Resident at least once every 30 days. The Recovery Plan must define the specific service supports and treatment referrals used to assist the Resident in his or her recovery process. Specifically, the Recovery Plan should focus on connecting Residents to treatment and peer supports, locating permanent housing, finding employment and meeting other unmet, non-treatment needs.

- **Treatment and Peer Support**: The Successful Proposer(s)’ case management staff must encourage Residents to seek sufficient professional care in order to meet their medical, psychological and community support needs that will support and strengthen their recovery process. They must inform Residents of the wide range of local treatment and recovery support services available including: 12-step or other mutual support groups, recovery community centers, recovery ministries, recovery-focused leisure activities and recovery advocacy opportunities. The Successful Proposer(s) must encourage Residents to include attendance at mutually these supportive, self-help groups and outside professional services in their Recovery Plan.

- **Housing**: The Successful Proposer(s) must plan for a Resident’s discharge to a permanent housing placement on day one of their admission into the Recovery House. Residents may have histories of homelessness, or were homeless or at imminent risk of homelessness upon discharge from inpatient treatment or jail. Recovery Housing offers a step down from institutional settings and a place Residents can work on housing readiness.

- **Employment**: Finding work is an essential step in the personal recovery process. The Successful Proposer(s) must help Residents identify jobs that will help set them on a path toward stability in recovery and housing. Recovery Houses must offer job readiness workshops and build relationships with local employers and community organizations to facilitate employment and volunteer opportunities for Residents. Because a Resident’s time is structured and may include numerous recovery-related activities during the day, it may not be reasonable or feasible for a Resident to have outside work at the beginning of their stay in a Recovery House. However, a goal of Recovery Housing is to prepare Residents to live sober, stable lives in the community. Gaining and maintaining employment is part of living a stable life and will pay for permanent housing. Employment opportunities must be scheduled into a Resident’s Recovery Plan.

- **Unmet Needs**: The Successful Proposer(s) must help Residents identify and address any unmet, non-treatment needs. For example, the Successful Proposer must help Residents connect Residents to public entitlements, especially Medicaid and Food Stamps to help ensure food security. Additionally, people in recovery often need legal aid to address criminal records or
debt-related issues. Residents also may request other activities that will aid their recovery such as wellness supports and sober recreational opportunities. The Successful Proposer(s) must provide help with and access to these unmet needs.

In addition to the unmet needs described above, where appropriate, the Successful Proposer(s) must connect Residents to the following:

- GED/literacy classes
- College/Vocational job training
- Employment readiness/placement services
- Job seeker services such as the Office Vocational Rehabilitation (OVR) and CareerLink
- Medical/Dental treatment
- Parenting classes
- Family counseling
- If child welfare-involved, activities associated with their Family Service Plan (e.g., visitation with their children)
- Outpatient drug and alcohol treatment supports
- Mental Health treatment and counseling
- Stress and anger management
- Finance and budgeting classes
- Probation/Parole offices
- Volunteer/Community Services
- Driver’s license restoration
- Tax consulting
- County assistance offices

2.4 Staffing/Training

The Successful Proposer(s) must maintain a staffing plan and have written descriptions of the duties of Recovery House staff posted in a common location in the Recovery House. DHS encourages the Successful Proposer(s) to include staff who are in recovery themselves. Not only does this type of staffing advance the peer support goals of the Recovery House, but it can provide Residents with an opportunity to become employed in a mission-oriented work environment. This creates an environment that benefits both the Successful Proposer(s) and the individual Residents. Staff should include:

- A **House Manager** who is identified in writing as the person responsible for all functions and operations of the Recovery House. The name, address and contact information of the House Manager must be posted in a common location in the Recovery House. The House Manager must be available 24 hours a day, seven days per week. Should the Successful Proposer(s) change House Managers, they must contact DHS within seven days. The House Manager will be responsible for providing new Residents with orientation to the Recovery House and for coordinating weekly, mandatory 12-step meetings.

- **Case Manager(s)**, preferably with lived experience with substance use disorder, who are responsible for working with Residents to build their Recovery Plan and for helping them meet the goals outlined in their Recovery Plan.

The Successful Proposer(s) must establish policies to reduce real or perceived ethical conflicts of interest...
for their staff. This may include situations when staff are affiliated with programs to or from which Residents may be referred.

Staff are required by the Pennsylvania Department of Drug and Alcohol Programs (DDAP) to receive the following trainings. Exceptions may be made for the trainings marked with an asterisk (*), pending DHS approval.

- **At hire**
  - Screening and Assessment*
  - Drug and Alcohol Pennsylvania Client Placement Criteria (PCPC) 3rd Edition
  - Practical Application of PCPC
- **Within 1 year of hire**
  - Addictions 101*
  - Confidentiality
  - Practical Applications of Confidentiality
  - Case Management Overview*
  - HIV/STD DDAP Approved
  - Cultural Competency
- **Within two years of hire**
  - Recovery Oriented Systems of Care
  - Safety in form of CPR, First Aid, and/or Bloodborne pathogens
  - Harm and risk reduction
  - Mental health
- **Ongoing**
  - Trainings in the Non-Treatment Intervention Tool (12 hours per year)

### 2.5 Records, Confidentiality and Reporting

The Successful Proposer(s) must maintain records for each Resident and keep records in a safe stored in a locked area or password protected and encrypted electronic device. The Resident has the right to inspect his or her own record. The House Manager is responsible for maintaining these records. Records (signed and dated at orientation) should include:

- Agreement to abide by the rules and requirements of the Recovery House
- Consent Form or Release Form
- Drug and Alcohol Pennsylvania Client Placement Criteria evaluation or treatment referral contact. A written log or a separate entry within the activity notes should record the nature and disposition of referrals made to outside resources.
- Activity notes indicating a Resident’s overall progress and current status in meeting his/her goals and needs, updated on a weekly basis. All notes should be dated and signed by the individual making entry.
- Complete record of monetary transactions between the Successful Proposer(s) and Residents

The Successful Proposer(s) must develop a written procedure that complies with 4 Pa. Code 255.5 and 42 CFR PRT II (Confidentiality of Alcohol and Drug Abuse Patient Records). The procedure must include, but is not limited to:
• Confidentiality of individual personal identifying information and records, including a description of how to address security and release of records and who is responsible for maintenance of records.

• Access to Resident records. Staff who may have access to Resident records must be identified by name or position. The methods by which staff gain access to records should also be outlined.

The Successful Proposer(s) must obtain an informed, voluntary and properly executed Drug and Alcohol Consent to Release Information Form the Resident for disclosure of protected information contained in the Resident’s record. The consent must be executed in accordance with all elements required under applicable state and federal laws and regulations. A copy of the consent must be offered to the Resident and a copy maintained in their records. Compliance with this standard may be demonstrated by indicating on the consent form whether the copy was accepted or refused, posting a policy statement or including it in the Resident’s orientation packet. Where consent is not required, staff must fully document the disclosure to the Resident and inform the Resident, as soon as possible, that the information was disclosed, for what purposes and to whom.

The Successful Proposer(s) will be responsible for entering claims to Community Care Behavioral Health (CCBH)\(^6\). If the Successful Proposer(s) are not already eligible to enter into CCBH, they must submit an application to CCBH so that they may submit claims. They must meet CCBH requirements (See Appendix C).

The Successful Proposer(s) must report unusual incidents to DHS within 48 hours and provide a written report of the event. Unusual events include, but are not limited to, the following:

• The death, overdose or a suicide attempt of a Resident
• Violent action resulting in injury of staff or Resident
• Outbreak of a contagious disease or food poisoning among Residents
• A serious crime
• A condition that results in closure of the Recovery House for more than one day of operation
• A fire or structural damage to the Recovery House
• Misuse or alleged misuse of a Resident’s funds or property

2.6 Performance Outcomes

DHS expects that the Successful Proposer will meet the following benchmarks. The Successful Proposer(s) must collect and report accurate progress for continuous quality improvement.

• 80% of Residents abstain from using drugs and alcohol while in Recovery Housing
• 100% of Residents exit to a permanent housing placement
• 100% of Residents who did not have income, gained income while in Recovery Housing
• 100% of Residents who were eligible for public entitlements, gained public entitlements while in Recovery Housing (e.g., Medicaid, Food Stamps)
• 100% of Residents participated in safe and sober activities while in Recovery Housing
• 100% of Residents who wanted to be connected to long term treatment supports while in Recovery Housing received connection

---

\(^6\) For more information about CCBH, see: [http://www.ccbh.com/](http://www.ccbh.com/)
• 100% of Residents were connected to physical and dental health supports while in Recovery Housing (if needed)
• 80% of Residents indicated satisfaction with their experience in Recovery Housing, as measured by a satisfaction survey administered at discharge from the Recovery House

The Successful Proposer(s) will be required to file a quarterly and an annual report on performance measures and service utilization.

2.7 Budget

DHS will make available up to $817,000 per year to fund five or more Recovery Houses. DHS expects there may be more than one Successful Proposer and that the funding will be divided among Successful Proposers according to Recovery House size. Current providers of Recovery Housing who wish to continue their Recover Housing program must submit a Proposal in response to this RFP.

Successful Proposer(s) must provide a realistic budget for operating their proposed Recovery House, including anticipated sources of funding beyond those available through this RFP. This may include funding from foundations or funding from private or other public sources that will support the cost of the program.

Section 3: Proposal Requirements and Evaluation Criteria

Proposers must meet the following evaluation criteria and should address their qualifications by responding to the specifically-requested items or questions in the Response Form. Proposers should download and type their responses directly into the Response Form available on the Active Solicitations webpage at www.alleghenycounty.us/dhs/solicitations. The maximum score a Proposal can receive is 110 points, as outlined in the following sections.

A. Organizational Experience (10 points total)

• Experience providing housing and supportive services to individuals with a history of unhealthy substance use. Evaluators will review performance data for providers that currently operate a program through DHS’ Bureau of Drug and Alcohol Services. (5 points)
• Experience helping individuals transitioning out of inpatient treatment facilities and/or the Jail on their path to recovery (5 points)

B. Housing (40 points total)

• A plan for how many Recovery Houses your organization proposes to provide, how many bedrooms the House(s) will have and how many Residents your organization intends to serve per House at any given time (5 points)
• A plan for the intake materials that your organization would complete and share with incoming Residents (5 points)
• A draft set of your organization’s proposed rules and requirements for the Recovery House and your organization’s plan for addressing Residents should they fail to comply with the rules and requirements (5 points)
A plan for supporting a Resident in the event of relapse and for preserving the stability of other Residents of the House in the event of a Resident’s relapse (5 points)

A plan for involuntary termination of a Resident from the Recovery House, including the possible reasons for termination, the process to notify a Resident and the appeals process (5 points)

Proposed Recovery House site(s) meet(s) the requirements for location and amenities, or a valid process plan for identifying an appropriate site (5 points)

A plan for being responsive to the needs/concerns of both Residents and neighbors (5 points)

A plan to ensure the proposed Recovery House(s) meet(s) the physical standards requirements, as described in section 2.2 E of the RFP (5 points)

C. Supporting Residents (20 points)

An approach to building and monitoring a Recovery Plan with Residents (5 points)

A plan for connecting Residents to treatment, employment, housing and other supports so that they successfully transition to independence (5 points)

A plan for ensuring that Residents have peer supports (5 points)

A plan for creating a supportive recovery community among Residents (5 points)

D. Staffing/Training Plan (10 points total)

A staffing plan that includes an appropriate number of staff with appropriate responsibilities and levels of experience (5 points)

A plan to recruit, train, and retain qualified staff and to ensure that staff have lived experience and reflect the population that they serve (5 points)

E. Records, Confidentiality and Reporting (5 points total)

A plan for maintaining accurate, secure client records and for reporting data in a timely way (5 points)

F. Performance Measures (5 points total)

A plan to track and monitor performance measures for quality assurance and to make appropriate changes based on those performance measures (5 points)

G. Financial Management and Budget (20 points total)

Financial health, as evidenced by audits and/or other supporting financial documentation (5 points)

A completed line-item budget and budget narrative that shows all planned expenses, reflects a realistic estimate of the costs associated with implementing the Recovery House and includes a clear plan for providing cash match via federal, state, local and private sector funds to support the Program (15 points)

Section 4: How to Submit a Proposal
This RFP is a solicitation to individuals, non-profit organizations, and for-profit organizations or businesses (Proposers) to submit a Proposal to perform the services as described in Section 2: What We Are Looking For. Proposers must have the ability to meet the identified needs and quality standards within the programmatic and funding guidelines specified in this RFP.

4.1 Submission Process

a. Please take time to review and understand the RFP in its entirety including:
   • The background (see Section 1: Why We Are Issuing this RFP)
   • The narrative (see Section 2: What We Are Looking For)
   • The requirements (see Section 3: Proposal Requirements and Evaluation Criteria)
   • The evaluation process (see Section 5: How We Will Evaluate Your Proposal)

b. Please use the Response Form to develop your Proposal. Type your responses to each requested item directly into the Response Form. It is available at our Active Solicitations website with the RFP announcement at www.alleghenycounty.us/dhs/solicitations.

c. Proposers must submit a complete Proposal. A complete Proposal includes the following attachments that are available on our Active Solicitations website:
   • Response Form
   • MWDBE documents
   • Allegheny County Vendor Creation Form
   • 3 years of audited financial reports
   • W-9
   • Draft set of house rules and requirements
   • Rental permission letters as needed
   • Budget

d. Please do not send any attachments other than those listed above and on the Response Form.

e. If you do not have audited financial reports for the last three years, you may submit other financial statements that attest to the financial health of your organization. Tax returns are the preferred alternative. Please note that providing financial statements is a requirement of contracting through Allegheny County.

f. Make sure to complete each section of the Response Form and to stay within any word counts that may be specified in the Response Form.

g. Proposals must be submitted electronically to DHSProposals@alleghenycounty.us no later than 3:00 p.m. Eastern Time on Monday, April 24, 2017 to be considered for review.

h. Please make sure to get your Proposal in before the deadline! If your Proposal is late, it will not be considered.

i. You will receive an email when your Proposal is received. If you do not receive this notification within 48 hours of submitting your Proposal, please contact DHSProposals@alleghenycounty.us

4.2 How to Contact DHS about this RFP

a. All inquiries and questions must be submitted via email to DHSProposals@alleghenycounty.us

b. All information about the RFP, including answers to questions, changes and clarifications will be posted at our Active Solicitations website at www.alleghenycounty.us/dhs/solicitations
c. Please be sure to check this website regularly for answers to questions, additional information or changes to the RFP or the RFP process.

4.3 Other Information

a. The issuance of this RFP does not obligate the County to enter into an Agreement with any Proposers.

b. Any Agreement originating from this RFP is subject to all of the Terms and Conditions specified in Section 6: Contract Requirements for Successful Proposers.

c. Proposers are responsible for all costs related to the preparation and submission of a Proposal.

d. Proposals become the property of the County and may become part of any subsequent Agreement between the Proposer and the County.

e. The Successful Proposal will be posted online in the DHS Solicitations Archive after an Agreement has been fully executed by the County and the Successful Proposer(s).

f. Proposers should also be aware that other records submitted in response to this RFP are subject to requests made pursuant to Pennsylvania’s Right-To-Know Law and that the County may have to make submitted materials available to a requestor after an award of an Agreement is made.

Section 5: How We Will Evaluate Your Proposal

Proposals will be evaluated by an evaluation committee convened by DHS. The evaluation committee will assign scores based on the program description in Section 2: What We Are Looking For and on the evaluation criteria in Section 3: Proposal Requirements and Evaluation Criteria using the scale listed in Section 5.1.b.

5.1 Evaluation Model

The evaluation process will consist of the following steps:

a. An Evaluation Committee will be formed by DHS and will consist of some or all of the following:
   - Content experts from within DHS, selected for their expertise and/or experience
   - Representatives of foundations, educational institutions, community and civic organizations, businesses and/or non-profit agencies

b. All Evaluation Committee members will individually review and score each Proposal. Each Evaluation Committee member will award points for each response on a Proposer’s Response Form according to their expertise and best judgment of how the Proposal submitted by that Proposer meets the evaluation criteria in Section 3 using the following scale:
   - 0 – Not addressed in Proposal
   - 1 – Poor
   - 2 – Below expectations
   - 3 – Meets expectations
   - 4 – Exceeds expectations
   - 5 – Outstanding
c. The Evaluation Committee members then will meet collectively to compile and discuss the individual scores and evaluation of each committee member.
d. DHS, on behalf of the County shall have exclusive discretion to shortlist a reduced number of Proposals for more extensive review using the same criteria outlined above. In this case, DHS may request that shortlisted Proposers make modifications to their Proposal or budget or make a formal oral presentation. The Evaluation Committee will review the modifications and/or oral presentation and rescoring the shortlisted Proposals using the original evaluation criteria.
e. At any time during the review process, DHS may contact a Proposer to discuss any areas of the Proposal needing clarification or further explanation.
f. The Evaluation Committee will submit their recommendation for award of an Agreement to the Director of DHS for his approval, who in turn will submit a request to the County Manager for approval for the County to enter into an Agreement with the Successful Proposer(s).
g. The County is under no obligation to award or enter into an Agreement as a result of this RFP. The County reserves the right to reject any and all Proposals.
h. All Proposers will be notified of their status following the final determination of which Proposer(s) will be awarded Agreements.
i. Proposers not awarded an Agreement who are interested in receiving feedback regarding their submission may request a phone call at DHSProposals@alleghenycounty.us.

5.2 Other Requirements

For a Proposal to be eligible for evaluation, it must be:
- Received by the due date/time
- Properly formatted and include responses to all requested information
- Complete with all required forms and attachments

Proposals which do not meet the above requirements will not be considered.

Section 6: Contract Requirements for Successful Proposers

In order to enter into an Agreement with the County, Proposers must be willing to comply with all contract requirements listed below and all standard terms and conditions contained in a County contract for provision of services to DHS and its offices. Additional details about contracting with Allegheny County are provided in the DHS Contract Specifications Manual, available at www.alleghenycounty.us/dhs/solicitations.

6.1 Minority, Women or Disadvantaged Business Enterprise (MWDBE) Requirements

Allegheny County has MWDBE goals of 13% participation for Minority Business Enterprises and 2% participation for Women Enterprises, and expects that Successful Proposers will make a “good faith effort” in assisting the County in meeting these goals.

a. All Proposals must include either of the following:
  1. If your organization is able to meet the MWBDE contract goals, a completed MWBDE Participation Statement and MWBDE Contact Information form is required. You must
also attach the MWDBE certifications of the firms you intend to use with the Participation Statement.

2. If your organization will request a waiver from participating in the MWDBE contract goals, a completed MWDBE Participation Statement, MWDBE Contact Information form and MWDBE Waiver Request are required.

b. MWDBE forms and resources can be found at www.alleghenycounty.us/dhs/solicitations:

1. MWDBE Forms
   - MWDBE Participation Statement
   - MWDBE Waiver Request
   - MWDBE Contact Information form

2. MWDBE Resources
   - MWDBE Contract Specifications Manual
   - MWDBE Response Checklist
   - Guide for completing the MWDBE Participation Statement
   - Sample Diversity Policy

c. For more information about MWDBEs, visit the Allegheny County MWDBE website.

6.2 HIPAA Compliance

DHS is a covered entity under the Health Information Portability and Accountability Act (HIPAA). Therefore, a Successful Proposer must comply with all HIPAA requirements.

6.3 Cyber Security

b. All electronic devices must have sufficient security software and settings to minimize the risk of an information breach.

c. Successful Proposers must also have policies in place to ensure that electronic devices are physically secure when not in use (e.g., locked in a vehicle trunk, password protected).

6.4 Equal Employment Opportunity and Non-Discrimination Requirements

By submitting a Proposal, a Proposer agrees to not discriminate against any employee, applicant for employment, independent contractor, client or any other person on the basis of race, color, religion, national origin or ancestry, sex, gender identity or expression, sexual orientation, disability, marital status, familial status, age (40 or over), or use of a guide or support animal because of blindness, deafness or physical disability.

6.5 New Provider Requirements

If awarded an Agreement, Successful Proposers who do not have current Allegheny County contracts will be required to complete the DHS New Provider Application, available at http://www.alleghenycounty.us/Human-Services/Resources/Doing-Business/Prospective-Providers.aspx. While not required as part of your Proposal, Proposers may wish to review the requirements of this application.
Appendix A: Overdose Information (for use in developing an Overdose Prevention Policy)

Opioid Overdose Basics

Definitions

- **What is an Overdose?**
  - Overdose (OD) happens when a toxic amount of a drug, or combination of drugs overwhelms the body.
  - With opioid overdoses, surviving or dying wholly depends on breathing and oxygen.
  - Heroin, prescription opioids (like Oxycontin, Fentanyl, Morphine, Vicodin, Percocet, etc.) and other downers such as alcohol and benzodiazepines (like Xanax, Klonopin, Valium, Ativan, etc.) are a particularly dangerous combo, since they all affect the body’s central nervous system, which slows breathing, blood pressure, and heart rate, and in turn reduces body temperature.
  - In a stimulant overdose drugs like speed, cocaine, and ecstasy raise the heart rate, blood pressure, and body temperature, and speed up breathing. This can lead to a seizure, stroke, heart attack or death.

- **Understanding Naloxone**
  - Naloxone is used to counter the effects of opioid overdose, for example morphine and heroin overdose. It is used in opioid overdoses. Naloxone only works if a person has opioids in their system; the medication has no effect if opioids are absent. Naloxone may be injected in the muscle, vein or under the skin or sprayed into the nose. Naloxone wears off in 30-90 minutes.

Risks & Prevention Strategies

- **Mixing Drugs**
  - Drugs taken together can interact in ways that increase their overall effect. Many overdoses occur when people mix heroin or prescription opioids and/or alcohol with benzodiazepines such as Klonopin, Valium, and Xanax. Most fatal overdoses are the result of poly-drug use.
  - When drugs are combined, the risk is increased. For example, the more alcohol and/or benzos (like Xanax, Valium, Klonopin) in your system, the less heroin needed to cause an overdose.
  - Speedballing (mixing heroin and cocaine). Sometimes people think that combining a stimulant and a depressant would counterbalance the different effects, the combination does not cancel out overdose risk. Actually, people who speedball are at higher risk for overdosing than people who use heroin or cocaine alone. This is likely because:

Prevention Tips:

- Use one drug at a time, or use less of each drug.
- Reduce the amount of every drug being taken
- Try to avoid mixing alcohol with heroin/pills—this is a dangerous combination
• If you are drinking or taking pills with heroin, doing the heroin first may reduce the risk as you can better gauge how high you are. Alcohol and especially benzos impair judgment so you may not remember or care how much you’ve used.

• Have a friend with you who knows what drugs you’ve taken and can respond in case of an emergency

• **Tolerance**
  
  o **Risks:** Tolerance is your body’s ability to process a certain amount of a drug. Low tolerance means that your body can only process a small amount of a drug (i.e., it takes less drugs to feel the effects) and increased tolerance means your body has learned how to process increased amounts of the drug (i.e., it takes more drugs to feel the effects). Tolerance develops over time, so the amount of a drug a long-time user needs to feel the drug’s effects is a lot greater than a newer user. Tolerance also wavers depending on several factors including, weight, size, illness, stress, compromised immune system, and age. Most importantly, tolerance can decrease rapidly when someone has taken a break from using a drug whether intentionally – for example, while in drug treatment or on methadone detox – or unintentionally – for example, while in jail or the hospital. Research has also shown that tolerance is effected when a person uses drugs in a new or unfamiliar environment, and therefore at a higher risk for overdose.

  
  Prevention Tips:
  
  o Use less when you are sick or you haven’t used—even a few days of abstinence or decreased use can lower your tolerance.
  o If you are using after a period of abstinence, be careful and go slow
  o Do a tester shot, or go slow
  o Use different method, e.g., snort instead of inject

• **Quality**
  
  Risks: Quality refers to how pure, or strong, a drug is. The content and purity of street drugs is always unpredictable. They are often “cut” with other drugs or materials that can be dangerous. You can’t tell how pure your drugs are from looking at it, and purity levels are always changing, which means you can do a shot that’s a lot stronger than what you are used to and put yourself at risk of an overdose. Same goes for prescription drugs—while we may know the contents of the pill and the dosage, we may not know how strong one type of pill is compared to another of a similar type. For example an Oxycontin is not the same as a Vicodin, even though both are in the opioid family. Knowing the strength and understanding dosage when taking pills is as important as knowing the strength and purity of street drugs like heroin.

  
  Prevention Tips:
  
  o Test the strength of the drug before you do the whole amount.
  o Try to buy from the same dealer so you have a better idea of what you’re getting.
  o Talk to others who have copped from the same dealer.
  o Know the pills you’re taking
  o Be careful when switching from one type of opioid pill to another

• **Using Alone**
Risks: If you are using alone there is no one there to call for help or take care of you if you go out. Many fatal overdoses have occurred behind closed or locked doors where the victims could not be found and no one was there to intervene.

Prevention Tips:
- Fix with a friend!
- Develop an overdose plan with your friends or partners.
- Leave the door unlocked or slightly ajar.
- Call someone you trust and have them check on you.
- Some people can sense when they are about to go out. This is rare, but if you are one of the people that can do this, have a loaded syringe or nasal naloxone ready. People have actually naloxone’d themselves before!

• **Age & Physical Health**
Risks: Older people and/or those with longer drug using careers are at increased risk for fatal overdose. While more experience is probably protective, the cumulative effects of long term substance use, which could include illnesses, like viral hepatitis or HIV or infections, like endocarditis or cellulitis, may hinder resiliency. Older people who overdose are less likely than younger people to survive their overdose. If you have a compromised immune system, you’ve been sick, or if you have a current infection, like an abscess, this also puts you more at risk for overdose because your body is weakened. Dehydration, not eating or sleeping also puts you more at risk for overdose. If you are a stimulant user, you are more at risk for a seizure, stroke, or heart attack if you also have other health issues like high blood pressure, heart disease, diabetes, high cholesterol or if you smoke cigarettes.

Also, since opioids cause your breathing to slow down, if you have asthma or other breathing problems, you could be at higher risk for overdose.

Everybody is Different. Rely more on what you know about your own body, tolerance and experience, on what partners are using because every body is different in how they process different substances.

Anyone who uses opioids, including people who take opioids for pain, should be aware of increased overdose risk if they have any of the following:

- Smoke or have COPD, emphysema, asthma, sleep apnea, respiratory infection, or other respiratory illness
- Have kidney or liver disease or dysfunction, cardiac illness or HIV/AIDS
- Drink alcohol heavily
- Currently taking benzodiazepines or other sedative prescription or antidepressant medication

Prevention Tips:
- Drink lots of water or other fluids, try to eat
- Pharmaceuticals, like opioids and benzos, especially with Tylenol (acetaminophen) in them, are harder for your liver to break down because of a lot of the stuff that’s in them. If you have liver damage, stay away from pharmaceuticals with a lot of acetaminophen in them, like Vicodin and Percocet.
• Carry your inhaler if you have asthma, tell your friends where it is, and that you have trouble breathing
• Go slow if you’ve been sick, lost weight, or have been feeling under the weather or weak—this can affect your tolerance.
• Try to find a good, nonjudgmental doctor and get checked out for other health factors that increase your risk of stimulant overdose, like high blood pressure, high cholesterol, heart disease or other physical issues that could increase your risk for a stroke or heart attack.

**Mode of Administration**
Risks: There are many ways to use drugs, including:

- Swallowing
- Snorting
- Intramuscular injection
- Intravenous injection
- Skin-popping (injecting just under the skin, not in a vein, and not in the muscle)
- Plugging (drug-water solution introduced rectally with a needleless syringe – aka “booty bumping”)

Regardless of mode of administration, overdose is possible. Modes of administration that deliver the drug more quickly to the brain and are more likely to create a rush, such as intravenous injection and smoking also place people at higher risk for overdose. When someone switches the mode of administration that they are used to, it is harder to anticipate effect. Similarly, when someone migrates to a new drug of choice, or temporarily substitutes a different primary drug, there can be a period of heightened risk. For example, if a person migrates from swallowing methadone to injecting methadone, from swallowing oxycodone (OxyContin, Roxicodone, Percocet) to swallowing oxymorphone (Opana), or from injecting heroin to injecting Dilaudid – these are all periods when a person should employ heightened overdose prevention techniques.

Prevention Tips:
• Be mindful that injecting and smoking can mean increased risk
• Consider snorting, especially in cases when you’re using alone or may have decreased tolerance
• If you inject, try and remove tie after registering (flash of blood back in the syringe) and before injecting – this will allow you to better taste your shot and inject less if it feels too strong
• Be careful when changing modes of administration since you may not be able to handle the same amount

**Previous Non-Fatal Overdose**
Risks: If a person has ever had a nonfatal overdose in the past, this increases the risk of a fatal overdose in the future.

Prevention Tips:
• Always use with a friend or around other people
• Use less at first, especially if you are using a new product
• Make an overdose plan with friends or drug partners

**Recognizing Opioid Overdose**
• How to recognize the if someone is experiencing overdose
Sometimes it can be difficult to tell if a person is just very high, or experiencing an overdose. The following will present some information on how to tell the difference. If you’re having a hard time telling the difference, it is best to treat the situation like an overdose – it could save someone’s life.

If you are worried that someone is getting too high, it is important that you don’t leave them alone. If the person is still conscious, walk them around, keep them awake, and monitor their breathing.

The following are signs of an overdose:
- Loss of consciousness
- Unresponsive to outside stimulus
- Awake, but unable to talk
  - Breathing is very slow and shallow, erratic, or has stopped
- For lighter skinned people, the skin tone turns bluish purple, for darker skinned people, it turns grayish or ashen.
  - Choking sounds, or a snore-like gurgling noise (sometimes called the “death rattle”)
  - Vomiting
  - Body is very limp
  - Face is very pale or clammy
  - Fingernails and lips turn blue or purplish black
  - Pulse (heartbeat) is slow, erratic, or not there at all

If someone is making unfamiliar sounds while “sleeping” it is worth trying to wake him or her up. Many loved ones of users think a person was snoring, when in fact the person was overdosing. These situations are a missed opportunity to intervene and save a life.

It is rare for someone to die immediately from an overdose. When people survive, it’s because someone was there to respond.

The most important thing is to act right away!

**Responding to Opioid Overdose**

- **Assessment & Stimulation**
  1. Assess the signs
     - Is the person breathing?
     - Is the person responsive?
     - Do they answer when you ‘shake and shout’ their name?
     - Can the person speak?
     - How is their skin color (especially lips and fingertips)?
  2. Stimulation
     - If the person is unconscious or in a heavy nod, try to wake them up: Call his or her name and/or say something that they might not want to hear, like “I’m going to call 911” or “I’m going to give you naloxone.”
     - If this does not work, try to stimulate him or her with pain by rubbing your knuckles into the sternum (the place in the middle of your chest where your ribs meet (Sternal Rub))

- **Call for help**

  It is recommended that you call 911 in the case of an overdose because it is important to have trained medical professionals assess the condition of the overdosing person. Even though naloxone can fix the overdose, there may be other health problems going on. Also, people who
survive any type of overdose are at risk of experiencing other health complications as a result of the OD, such as pneumonia and heart problems. Getting someone to be checked out by a medical professional is an important part of reducing the harms associated with overdosing.

REMEMBER! Naloxone only works if there is opioids involved with the OD. It cannot reverse an OD of cocaine, speed, benzos, alcohol or other non-opioid based drugs.

Recovery Position: If you have to leave the person at all, even for a minute to phone 911, make sure you put them in the Recovery Position, which means laying the person slightly on their side, their body supported by a bent knee, with their face turned to the side. This will help to keep their airway clear and prevent them from choking on their own vomit if they begin to throw-up.

What to Say to 911: What to say when calling 911 depends on the local emergency response to overdoses. In every community, it is important to report that the person’s breathing has slowed or stopped, he or she is unresponsive, and give the exact location. If Naloxone was given and it did not work, tell the dispatcher.

When making the call:

- Tell the dispatcher exactly where you and the overdosing person are. Give them as much information as possible so that they can find you (e.g., 3rd floor, or in the bathroom).
- Avoid using words like drugs or overdose—stick to what you see: “Not breathing, turning blue, unconscious, non-responsive, etc.” This makes the call a priority.
- When the paramedics arrive, tell them what you know about what drugs the person may have been using—as much information as possible. If the paramedics suspect opioids, they will give the victim an injection or intranasal dose of naloxone.
- Keep loud noise in background to a minimum—if it sounds chaotic, they will surely dispatch police to secure the scene and protect the paramedics.

If calling 911 is not an option (some people will not call), it is important to make some alternate plans if your rescue attempts are not working. Can someone else in the vicinity call? Could you provide rescue breathing, naloxone, and put the person in the recovery position and then leave to alert someone to call, even a passerby? Leave the person where they can be found, with doors unlocked and/or open. Remember, doing something is better than doing nothing.

- **Administer Naloxone**
  - **How to Administer Nasal Naloxone**
    - Do rescue breathing for a few quick breaths if the person is not breathing.
    - Affix the nasal atomizer (applicator) to the needleless syringe and then assemble the glass cartridge of naloxone (see diagram).
    - Tilt the head back and spray half of the naloxone up one side of the nose (1cc) and half up the other side of the nose (1cc).
    - If there is no breathing or breathing continues to be shallow, continue to perform rescue breathing for them while waiting for the naloxone to take effect.
    - If there is no change in 3-5 minutes, administer another dose of naloxone and continue to breathe for them. If the second dose of naloxone does not revive them, something else is wrong—either it has been too long and the heart has already stopped, there are no opioids in their system, or the opioids are unusually strong and require more naloxone.

- **Injectable Naloxone:**
  - Do rescue breathing for a few quick breaths if the person is not breathing.
- Use a long needle: 1 – 1 ½ inch (called an IM or intramuscular needle)- needle exchange programs and pharmacies have these needles.
- Pop off the orange top vial
- Draw up 1cc of naloxone into the syringe 1cc=1mL=100u.
- Inject into a muscle – thighs, upper, outer quadrant of the butt, or shoulder are best.
- Inject straight in to make sure to hit the muscle.
- If there isn’t a big needle, a smaller needle is OK and inject under the skin, but if possible it is better to inject into a muscle.
- After injection, continue rescue breathing 2-3 minutes.
- If there is no change in 2-3 minutes, administer another dose of naloxone and continue to breathe for them. If the second dose of naloxone does not revive them, something else may be wrong—either it has been too long and the heart has already stopped, there are no opioids in their system, or the opioids are unusually strong and require more naloxone.
- Once naloxone has been delivered and if the person is not breathing, continued rescue breathing is important until help arrives.

Naloxone only lasts between 30 – 90 minutes, while the effects of the opioids may last much longer. It is possible that after the naloxone wears off the overdose could recur. It is very important that someone stay with the person and wait out the risk period just in case another dose of naloxone is necessary. Also, naloxone can cause uncomfortable withdrawal feelings since it blocks the action of opioids in the brain. Sometimes people want to use again immediately to stop the withdrawal feelings. This could result in another overdose. Try to support the person during this time period and encourage him or her not to use for a couple of hours.

**IMPORTANT!**
If the person who overdosed is not responsive to stimulation, not breathing, and has no pulse after receiving naloxone and rescue breathing, then the victim needs cardiopulmonary resuscitation (CPR) via a trained bystander and the emergency medical system. Call 911!

- **Perform Rescue Breathing**
  - Lie the person on their back on the floor
  - Tilt their head back with a finger on the side of their jaw
  - Open their mouth and remove anything in their mouth by scooping with a finger
  - Pinch their nose shut
  - Take a deep breath and place your mouth over theirs
  - Give two breaths to start, making sure their chest is rising and falling
  - Give one breath every 5 seconds until naloxone begins to take effect or ambulance arrives.

- **Aftercare**
  Withdrawal and re-overdose risk

Because naloxone blocks opioids from acting, it is possible that it can cause withdrawal symptoms in someone that has a habit, daily opioid pain medication use or other opioid tolerance. Therefore, after giving someone naloxone he or she may feel dopesick and want to use again right away. It is very important that one does not use again until the naloxone wears off so that a re-overdose does not occur.
Bystanders who use naloxone often report that it works immediately, however it may take up to 8 minutes to have an effect. Naloxone’s effect lasts for about 30 to 90 minutes in the body. Because most opioids last longer than that, the naloxone may wear off before the effects of the opioids wear off and the person might go into an overdose again. Naloxone administration may be repeated without harm if the person overdoses again. In addition, if the person uses more heroin or opioids when there is still naloxone in the system, he or she may not feel it at all – naloxone will knock it out of the opioid receptors and the person will have wasted their drugs. If the person cannot walk and talk well after waking up, then it is very important that they are taken to the hospital. If possible, stay with the person for several hours keeping them awake.
Appendix B: Fire Safety

Fire Safety
All stairways, hallways and exits from rooms and from the House must remain unobstructed and operable at all times. There must be a minimum of two exits per floor of the Recovery House, including the basement, that are separated by a minimum of 15 feet. Basements and attics not having two exits cannot be used for any reason and should remain locked at all times. Operable portable ladders and rope escapes may not be used as standard exits. Any secondary exit that crosses a roof must have a catwalk with a secure railing. Each ramp, interior stairway and outside step exceed two steps must have a well-secured handrail, as must each porch with over an 18-inch drop. Exits must be clearly indicated by use of signs and interior exits and stairs light at all times.

Smoke detectors and Fire Alarms
A Recovery House must have one operable smoke detector per floor, including the basement and attic. On floors with Resident bedrooms, a smoke detector must be located no less than 15 feet of each bedroom door. On floors with no bedrooms, it must be located in a common area or hallway. Broken smoke detectors must be repaired with 48 hours. Smoke detectors and fire alarms must be of a type approved by the Department of Labor and Industry or by the Underwriters Laboratories. Carbon Monoxide detectors must be utilized in homes that have heating systems that generate carbon monoxide or in homes with attached garages. The detector should be within 15 feet of the source and loud enough for Residents to hear. Accommodations must be made for individuals with hearing impairments.

Fire Extinguishers
Recovery Houses must maintain fire extinguishers with an ABC rating on each floor (with one per 2,000 square foot of floorage), including basements and attics. They must be visible and easily accessible. There must be a fire extinguisher in the kitchen. Fire extinguishers should be inspected annually and repaired with 48 hours. All Residents must be instructed on how to use the extinguishers at orientation and the instruction must be documented.

Fire Drills
The Recovery House must have a written policy in place on fire safety, including a fire safety plan (shared with Residents at orientation) and house evacuation procedures to be used during a fire or as a part of regular fire drills. The Successful Proposer(s) must maintain records on fire drills and fire safety procedures within the house. The Successful Proposer(s) must conduct unannounced fire drills at least once every 90 days, during which all Residents evacuate.
FACILITY ASSESSMENT/REASSESSMENT CHECKLIST
(The application is complete when the following sections have been completed and appropriate documentation attached.)

- Section A – Facility Identifying Information, including contact information.

- Section B – Certificate of Liability Insurance
  - Current liability face sheet demonstrating a minimum of $1M/$3M for non-hospital facilities, $500,000/$2.5 Million for hospitals
  - A loss run /malpractice history (past 5 years for initial assessment or past 3 years for reassessment) from your liability carrier.

- Section C-1 – Quality Management, including a copy of the Quality Management Plan
- Section C-2 – Fraud, Waste and Abuse, including a copy of the Compliance Plan

- Section D - Physician Roster (Hospitals only – submit roster of all BH physicians)

- Section E – Accreditation with copies of current JCAHO, CARF or COA certificates
  - Please note that if your facility is not accredited Community Care is required to either conduct an on-site visit for each service address or obtain current copies of licensing reports (in addition to license face sheets) including any correspondence documenting follow-up to any corrective action items or plans

- Section F – Clearances
  - Provider must attest if policies are in place for Act 33/34 and FBI clearances in Accordance with Exhibit B.
  - Provider must attest if policies are in place for Screening for exclusion in Federal Health Care Program

- Section G – Legal

- Conditions of applications signed and dated (Page 5)

- Confirmation of Tax ID – either an IRS letter (preferred) or a signed W9

**C-1. QUALITY MANAGEMENT**

Community Care and its oversight entities require facilities to submit a Quality Management Plan. Please attach a copy of your organization’s plan. If you do not have this document, please request a sample plan by contacting the Credentialing Department at 1-888-251-2224.

- Quality Management Plan Attached

**C-2. FRAUD, WASTE AND ABUSE (HealthChoices Providers)**

Community Care and its oversight entities require facilities to submit a Fraud, Waste and Abuse Compliance Plan. Please attach a copy of your organization’s plan. If you do not have this document, please request a copy of the Provider Alert indicating the specific requirements by contacting your Provider Relations Representative at 1-888-251-2224.

- Fraud Waste and Abuse Compliance Plan Attached

---

**D. PHYSICIAN ROSTER**

"Hospitals only – Please submit a staff roster of all Behavioral Health Physicians."

- Staff Roster Attached, if applicable
E. ACCREDITATION (Please attach copy of accreditation face sheet)

Is the facility accredited by JCAHO, CARF, COA or similar entity? □ Yes □ No □ Not Applicable

Please list all relevant accreditations:

1a. Organization: __________________________ Date of Initial Accreditation: __________________________
Date of Next Review: __________________________ Accreditation Status: __________________________
Has accreditation ever been denied, revoked, suspended or otherwise limited? □ Yes □ No
If yes, provide details: ________________________________________________________________

1b. Organization: __________________________ Date of Initial Accreditation: __________________________
Date of Next Review: __________________________ Accreditation Status: __________________________
Has accreditation ever been denied, revoked, suspended or otherwise limited? □ Yes □ No
If yes, provide details: ________________________________________________________________

F.

(1.) CLEARANCES

Please affirm that your organization has a policy/policies in place to meet the Clearance Requirements in accordance with Attachment B to this Application by signing below.

Signature: __________________________ Date: ________________

(2.) FRAUD, WASTE AND ABUSE COMPLIANCE PROGRAM (HealthChoices providers)

Please affirm that your organization has developed and implemented a Fraud, Waste and Abuse Compliance program including the screening of employees and contractors for exclusion in Federal Health Care Programs, including the development, implementation and documentation of monthly verification of employees, contractors and business partners involved in Medical Assistance Funds.

Signature: __________________________ Date: ________________
G. LEGAL

If the answer is "Yes" to questions 1 through 4, please answer questions 7-10 below.

1. Has the facility been party to any litigation related to its clinical practice? □ Yes □ No

2. Has the facility ever been expelled or suspended from any insurance program? □ Yes □ No

3. Is there any litigation related to the facility's clinical practice to which the facility is a party or does the facility have notice that litigation will commence? □ Yes □ No

4. Have there been any disciplinary actions taken against the facility by a state licensing body or professional organization? If yes, indicate which category as listed in item 5 below. □ Yes □ No

5. Has the facility had any Medicaid, Medicare or other governmental or third party payer sanctions? □ Yes □ No

By what authority? ____________________________________________________________

What was the disciplinary action taken? ____________________________________________

What is the facility's current status with this authority? ________________________________

Comments: ______________________________________________________________________

6. Has there been any disciplinary action taken by any other authority? □ Yes □ No

By what authority? ____________________________________________________________

What was the disciplinary action taken? ____________________________________________

What is the facility's current status with this authority? ________________________________

Comments: ______________________________________________________________________

If you answered "yes" to questions 1 through 4, please complete questions 7 through 10.

7. □ Litigation □ Threatened Litigation □ Disciplinary Action

8. Description of Incident:

Date(s) of action(s) complained of: ________________________________________________

Age and sex of patient (if applicable): _____________________________________________

Diagnosis (DSM-IV): _____________________________________________________________

Medication(s) at date of incident: _________________________________________________

Narrative description of action complained of: _______________________________________ 

Treatment setting of action complained of:

Was the facility the primary treatment provider at the time of the incident? □ Yes □ No

If the facility was not the primary treatment provider at the time of the incident, please explain the facility's role: _________________________________________________________________

9. Disposition of Incident

What is the status of litigation or disciplinary action against the facility (i.e. what charges have been filed or readjusted?)

In what court was/is the litigation pending or what authority had/has jurisdiction? ________

If the litigation of disciplinary action is concluded, what was its disposition? ________________

Did the facility or insurer make any financial payment on account of the litigation to any person? □ Yes □ No

10. Name and Address of the attorney representing the facility in this incident: ____________________________
Conditions of Application

Facility acknowledges and agrees that Community Care has a valid interest in obtaining and verifying information concerning its professional competence in determining whether to enter into an agreement with Facility for the provision of services to members and Facility wishes to enter into such an agreement. Accordingly, intending to be legally bound Facility:

- Represents and warrants to Community Care that the information contained in the foregoing application is true and complete to the best of its knowledge and belief and agrees to inform Community Care promptly if any material change in such information occurs, whether before or after entering into an agreement with Community Care for the provision of medical services;
- Authorizes Community Care to consult with hospital administrators, members of hospital staff, malpractice carriers, and other persons to obtain and verify information concerning its professional competence, ability to work with others, character, and moral and ethical qualifications and hereby releases Community Care and its employees and agents from any and all liability for their acts performed in good faith and without malice in obtaining and verifying such information and in evaluating this application;
- Consents to the release by any source, person, or organization to Community Care of all information that reasonably may be relevant to an evaluation of its professional competency, character, and moral and ethical qualifications, including any information relating to any disciplinary action, suspension, or curtailment of privileges and hereby releases any such person or organization providing such information from any and all liability for doing so;
- Consents to the inspection by all representatives of Community Care of all documents that may be material to an evaluation of its qualifications and competence;
- Pledges to maintain an ethical practice, to provide for the continuous care of its patients, and to refrain from delegating the responsibility for care of its patients to any person not qualified to undertake that responsibility;
- Acknowledges that, as an applicant for participation, it has the burden or producing adequate information for a proper evaluation of its professional, ethical, and other qualifications for such participation and for resolving any doubts about such qualifications;
- Acknowledges the responsibility to correct erroneous information on application;
- Acknowledges that any significant misstatements in or omissions from this application constitute cause for denial of participation or cause for summary dismissal from the Community Care provider network;
- Acknowledges the right to review information submitted to support the credentialing in accordance with Community Care policy(ies);
- Acknowledges the ability to register members for appointments in accordance with Community Care standards for routine, urgent, non-life threatening emergency, and emergency needs.
- Acknowledges the right to request the status of the credentialing application;
- Certifies that all information given to the foregoing questions and statements in this application are true and correct without omissions of any kind;
- Acknowledges that a photocopy of this permission will serve as the original.
- To correct erroneous information after the application has been submitted, please contact the Credentialing Department within 30 days after submission of application in writing or by telephone to: Community Care, Attention: Credentialing Supervisor, 339 Sixth Ave, Suite 1300, Pittsburgh, PA 15222.

I hereby certify that all of the responses and information provided pursuant to the above requests are complete, true and correct to the best of my knowledge.

</tr>
</tbody>
</table>

**Providers serving Older (ages 60 and older) or Care Dependent Adults**

All facilities providing service to Older or Care Dependent Adults must have a policy in place requiring the following

<table>
<thead>
<tr>
<th>Type of Provider</th>
<th>Clearances Required</th>
<th>Frequency of Update for Employees</th>
</tr>
</thead>
<tbody>
<tr>
<td>HealthChoices Contracted Providers and UPMC Contracted providers</td>
<td>A Pennsylvania State Police Criminal Background Check (Act 34) for those individuals who may have direct contact with this population.</td>
<td>Upon Hiring</td>
</tr>
</tbody>
</table>
INSTRUCTIONS FOR COMPLETION OF ATTACHMENT A

- Please complete one Attachment A for each service at each Service Location.

- If more than one service is offered at the same location, please make copies of the Attachment A and complete one Attachment A for each service.

- All information provided within the Attachment A (i.e. Program Licensure/Enrollment, Program Type, Competencies, Age Ranges, Priority Populations, Specialty Populations and Areas of Specialization) should be specific to the program identified in Section A.
Attachment A

Please complete one attachment for each program at each service location. Collection of accurate program information is necessary for Community Care to complete the credentialing and contracting process. Incomplete or unreported information may result in contracting delays.

<table>
<thead>

Provider Compliance Plans

Community Care has established a fraud, waste, and abuse detection and prevention compliance (FWA Audit) program that complies with regulations set forth by the Office of Inspector General (OIG) of the Department of Health and Human Services and with the requirements of the Bureau of Program Integrity of the Department of Public Welfare (BPI). The OIG encourages health care organizations to establish voluntary compliance programs to educate and attempt to control fraud, abuse, and waste in health care. Documents have been published by the OIG that identify the minimum elements that should be included in a compliance program, as well as specific areas of concern to the OIG. The BPI has and continues to issue guidance on the detection and reporting of suspected fraud waste and abuse. The elements that should be included within the compliance program are as follows:

1. Established written compliance standards, policies and procedures
2. Specific high level individuals hold responsibility
3. No delegation of substantial discretionary authority
4. Effective internal and external communications
5. Established monitoring and auditing systems designed to detect criminal activity (including monthly screening of employees, contractors or other business partners for exclusion from participation in any federal healthcare program in accordance with Medical Assistance Bulletin 99-11-05)
6. Consistent enforcement through disciplinary mechanisms
7. Response and corrective action must take all reasonable steps to respond to the offense
8. Compliance Plan Overall Effectiveness
9. Conducting effective training and education

This Provider Alert is issued to reinforce with providers the expectation that all providers develop a comprehensive compliance program. In addition, Community Care will be requesting a copy of the compliance plan at the time of the next Credentialing/Assessment, beginning after January 1, 2013. In addition, Community Care staff may request a copy of a provider’s compliance plan during any of the following activities: (a) Quality Management audits; (b) Fraud, Waste and Abuse Audits; and (c) Network Management/Provider Relations site visits.

Additional information regarding fraud, waste, abuse and compliance can be found at the following links:

http://www.dpw.state.pa.us/learnaboutdpw/fraudandabuse/healthcarecomplianceplansformedicalassistanceproviders/index.htm
