Fitzgerald Statement on Pfizer Having Millions of Unclaimed Vaccine Doses

PITTSBURGH – County Executive Rich Fitzgerald issued the following statement in response to news stories that Pfizer has millions of unclaimed doses of the COVID-19 vaccine in its warehouses:

“If this is true, and I have no reason to doubt it, this feeds on the benign neglect by the administration of this national tragedy.

“This is astounding. For every day we delay, another 3,000 Americans die. It’s as if the captain of the Titanic keeps life boats in storage while people drown.”
