THE COUNCIL NEWS

NEWSLETTER OF ALLEGHENY COUNTY COUNCIL

2026-2027 Annual Budget Process

In a few weeks, the annual budget process will be underway for County Council. Each year, a balanced budget must be enacted 25 days before the end of the year for the next fiscal year which begins January 1st. The process formally begins with the Chief Executive's presentation of the Comprehensive Fiscal Plan (CFP) which will take place on October 6th this year.

County Council then will hold two public hearings regarding the proposed budget for 2027. The hearings will be held on October 21st and 29th beginning at 5:00 pm in the Gold Room of the Allegheny County Courthouse. There will be presentations on the following topics: Community College of Allegheny County, Pittsburgh Regional Transit, Independently Elected County Offices, Courts, and General Government Operations. Once finalized, the agendas can be found at:

<https://alleghenycounty.legistar.com/Calendar.aspx>.

At the conclusion of the public hearings, Council's Committee on Budget and Finance will consider the budget bills where amendments could be offered. The process culminates with the passage of the millage ordinance and resolutions establishing the operating, capital, grants and special accounts budgets for the next fiscal year. The budget will then take effect on January 1st which begins the county's fiscal year.

PUBLIC WORKS PROJECTS AND CLOSURES

Talbot Avenue Ramp Replacement Project

The ramp was closed as part of the Braddock Avenue/Kenmawr Avenue ramp replacement project. When construction ended on the new Braddock Avenue/Kenmawr Avenue ramp, the Department of Public Works decided to keep the Talbot Avenue ramp closed and demolish it to save on maintenance costs until the ramp is replaced. The new ramp is expected to be constructed in 2028.

Start: April 7, 2026

Estimated End: 2029

Jacks Run Bridge No. 3 Replacement Project

During an inspection, inspectors found corroded steel within Jack Run Bridge No. 3's only pier. Traffic restriction: Full closure of Jacks Run Road between Bellevue Road/Bellpark Drive and Kane Lane. Periodic full closures of I-279 northbound and southbound, along with the interstate's High Occupancy Vehicle (HOV) lanes, from June 17 through August between the following times:

- 9 pm through 5 am Sunday-Friday
- 9 pm Friday to 9 am Saturday
- 9 pm Saturday to 9 am Sunday

I-279 northbound will be closed between the McKnight Road/Evergreen Road exit ramp (Exit 4) and the I-279 North entrance ramp from Camp Horne Road. I-279 southbound will be closed between the Camp Horne Road exit ramp (Exit 8) and the I-279 South entrance ramp from McKnight Road. When I-279 is not fully closed, there will continue to be periodic single-lane closures on I-279 northbound and southbound under Jacks Run Road and closure of the I-279 northbound on-ramp from Cemetery Lane between 7 pm and 6 am daily through the remainder of the project.

Start: July 3, 2025

Estimated End: Fall 2027

PUBLIC WORKS PROJECTS AND CLOSURES

Bessemer and Lake Erie Railroad Bridge No. 1 Repairs Project

Repairs to Bessemer and Lake Erie Railroad Bridge No. 1, including deck, approach, sidewalk, and barrier repairs; the cleaning and painting of structural steel; and downspout cleaning. Traffic restriction: full closure of Universal Road near Hershey Road. Homes and businesses near the closure area will be accessible at all times.

Start: July 13, 2026

Estimated End: October 2026

Campbell's Run Road Improvement Project

This is the largest road project ever undertaken by Public Works. The project will improve traffic flow and safety in this rapidly developing area of the county. More than 50 side streets and driveways between McMichael Road and Keiners Lane create bottlenecks on the existing two-lane road. The most severe traffic congestion on Campbells Run Road occurs at Boyce Road, where westbound/outbound drivers on Campbells Run Road must wait for breaks in eastbound/ inbound traffic to safely turn left onto Boyce Road and ultimately access the I-376 East entrance ramp. Traffic flow in this area is further complicated by the road's offset intersections with Boyce Road and Parkway View Drive, the traffic signals at the I-376 West off-ramp (Exit 62), and multiple driveway access points.

Campbells Run Road also experiences frequent ponding and drainage issues. While this project will not prevent flooding caused by the adjacent Campbells Run overflowing, it will increase the roadway's ability to drain stormwater quickly.

Planned work includes: Reconstruction and widening of a 1.63-mile section of Campbells Run Road between McMichael Road and Keiners Lane to add a two-way center turn lane as well as left- and right-turn lanes at major intersections. Realignment of Boyce Road (State Route 3041) and Parkway View Drive to create a new four-way intersection with traffic signals. Construction of a sidewalk along Campbells Run Road between Business Center Drive and Penn Center Boulevard. Widening of the I-376 West off-ramp (Exit 62) to Campbells Run Road. Replacement of a culvert on Boyce Road and extensions of culverts on Campbells Run Road at Glass Road and Keiners Lane. Construction of nine retaining walls and two stormwater management basins. Installation of new roadway drainage, curb, guide rail, signs, and pavements markings – including bike sharrows. Upgrades to traffic signals at existing signalized intersections. Utility relocations, adjustments, and upgrades.

Start: March 9, 2026

Estimated End: 2031

TRAVELING GLASS RECYCLING

Why Recycle?

Glass is still one of the most recyclable materials generated in homes, and should not be trashed. Glass bottles and jars are 100% recyclable and can be recycled for reuse endlessly without losing any quality, which makes the effort to put these items back into the recycling ecosystem even more important.

How do I Prepare Glass?

Containers should be empty and rinsed. Lids and labels do not need to be removed. Please remember that any bags or boxes used to carry the glass must be taken with you and discarded off-site. Check this flyer to see what can be recycled: Traveling Glass Flyer.
