Board of Elections and District 1 Representative--

It has been several weeks since my last email.

Are there any plans to schedule discussion for a BOE code of ethics yet?

It would be a good place to differentiate if activities are ethical for board members. For example, is calling someone a name in a public meeting censurable? What about on Twitter/X? What about participating in a false slate of electors which is interpreted by many as a delay tactic to defraud Allegheny County voters by delaying and interfering in their rights to vote?

I am requesting that this get discussion and serious consideration.

Thank you
