Help,

Can anyone explain why this recertification is necessary? Have lawsuits brought this about? Does it change the outcome in any way?

Subject: 2020 General Election Certification

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I was a Poll Worker in Allegheny County on Nov 3rd. Every in-person voter who cast a ballot was checked in the poll book to determine if they were registered in the district and if they applied for a mail-in ballot, then they were required to sign the poll book. First time voters were required to show ID. In our Ward, 17% of the in-person voters were required to either spoil their mail-in ballot or complete a provisional ballot due to discrepancies. How was this same level of integrity applied to returned mail-in ballots to certify them as legitimate, registered voters against the voter registration roster, as well as, verify they did not vote in-person on Nov. 3rd? Also, what percentage of mail-in ballots were deemed invalid?

Subject: Election integrity

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Please make changes to improve the integrity of elections. For over 20 years I was judge of elections at the 4th ward of the city of Pittsburgh. During that time all of the improvements were to facilitate voting and counting. Electronic machines are not transparent in their operation and mail-in ballots place a greater burden on the honesty of poll workers. We are average people with no more probity than police or priests. Yet, we are less likely to be faulted for our moral failures. This can only be because our transgressions are not being detected. I know of no background checks for poll workers and the very occasional poll watchers were amateurish. The potential for fraud is growing. We are living in the age of the hacker. Supposedly it is common knowledge that we have all been hacked multiple times. It is not credible that election systems are more secure than banking and business which suffer losses daily. Please do what you can to upgrade security. As somewhat an insider I attest that it was seemingly possible for me to be unscrupulous with the little authority I had over the polling place. In other countries, people have had completely bogus elections. We are not better human beings. In those countries, in lieu of elections they have civil war. No justice no peace. Make changes to make fraud very difficult despite having to make voting and tallying relatively arduous. Thank you and God bless you with wisdom.

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

My wife (Joann K Clawson) was denied the right to vote "normally" at the polls on Tuesday morning, November 3rd. She was told she had requested a mail-in ballot and would need to vote by provisional ballot.

She absolutely did NOT request a mail-in ballot.

Her provisional vote came with a "receipt" containing a unique number so she could check on line to see that her provisional vote had been accepted. As of this moment, three weeks after the election, her ballot (receipt # **20025921**) has not been accepted.

You have fixed this election, President Trump and Congressional Candidate Sean Parnell are victims of your actions. You should all be ashamed of yourselves.

Subject: Do not amend certification to add illegal ballots

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Dear Board of Elections,

I am writing to ask you NOT to certify at Wednesday's meeting the 2400 ballots that do not have a post mark or timestamp because such an action would violate election law and therefore should be invalid. The only body that makes the election law is the state legislature and according to the current law, these ballots are illegal and cannot be validated by the Board of Election, Election Department employees, or judges at any level. The authority to change the rules resides only with the state legislature.

I appeal to you not to make such an arbitrary and capricious decision because the public trust that makes our democracy work depends on public officials making fair and responsible decisions. If we don't have honest elections, then we don't have a democracy.

Sincerely,
Dave Majernik

Subject: public comment for Nov. 25 virtual meeting for the amendment of the certification of the 2020 General Election

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I am writing to publicly express my outrage and disgust at Councilman DeMarco's unlawful refusal to certify our election. OUR collective election – not his! Apparently, the term “public servant” does not apply to Mr. DeMarco. I'm not sure whom he's attempting to serve, but it is most certainly NOT the voters of Allegheny County, nor our fragile American democracy. Does any reasonable person believe he would have done the same had the current occupant of the White House won reelection? What a laugh. Perhaps he is grandstanding for the opponents of democracy who have revealed themselves so clearly these past four years? Perhaps he is part of an actual, nonfictional conspiracy being perpetrated by other Republican elected officials in the Commonwealth who see fit to subvert the will of the people? I don't pretend to have access to his motives; I can only speculate.

What is NOT speculation, Mr. DeMarco, is that this grotesque, quote-unquote “protest vote” has NO place in a democracy. Using the position entrusted to you by voters to go against our express will is breathtakingly arrogant, lawless, and dangerously autocratic. How dare you abuse your authority and the public trust? “Protest” in your own time, on your own dime, and outside of your capacity as an elected official!

About certifying Michigan's election results, Aaron Van Langevelde, Republican member of Michigan's board, said: "It's not complicated. It's very simple. We're required to canvass the returns and determine the result.... Our duty is very simple, and it's our duty."

Do you hear that, Mr. DeMarco? What you did was a dereliction of duty. You have earned the eternal scorn of all true patriots and brought shame upon yourself and your party. I call on you to resign from Council, now.

Subject: Election in the 45th Senatorial District

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I am a 73 year old resident of the 45 Senatorial District.

I have been involved in elections for more than fifty years and I have never been so disappointed by the different handling of ballots in this election.

The rules were simple and all over the press and the news.

You needed to post your signed and dated ballot in the secrecy envelope prior to Election Day with enough time for it to arrive to be counted.

It is obvious the votes that are to be added did not comply with the law. There is no need to rush certification of these non complying ballots prior to the end of the year. The new senate is not sworn in until January.

I for one would like this to play out so the person we worked hard to elect gets a fair shake.

I'm writing to you as an Allegheny county resident and resident of Monroeville to request that you please stop counting illegal ballots. The legislature passed specific laws about what types of ballots are legal. You do not have the authority to circumvent the law no matter what your personal opinion is. Frankly, it looks like you a Democratic board is trying to steal the election from Nicole Zicarelli for your Democratic candidate when it is clear she is the winner! This is exactly why voters have lost faith in the integrity of elections. People are beginning to feel that their votes don't really matter because elected officials will play with the results until they get the outcome they desire. It's time for you people to put country over party! This fiasco of an elections has become a joke. The American people see exactly what is happening. It's very simple, stop counting illegal ballots!

There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland. The appeals process has not run out for some of the decisions in Westmoreland. The fact that we debating votes that were not submitted properly after voters had 50 days to mail them in and even more time to learn the very simple process of submitting them is ridiculous. Nicole Zicarelli is the clear winner in this race and the fact that this is being disputed is crazy, do the right thing - declare Zicarelli the winner.

Submitted,

Corey Barsky

Talking Points for Allegheny Board of Elections Public Comments

Comments MUST be submitted by 7:00pm TONIGHT to BOE@alleghenycounty.us

Tomorrow's 2pm meeting can be viewed at <https://bit.ly/3fxYrWC>.

- "Democrats are trying to steal this election. Before ballots that current law clearly states should be not counted because they are undated were added to this count, Nicole Zicarelli was the clear winner of the 45th Senate District. They're trying to steal this election."
- "I have to follow the law when I drive. I have to follow the law in everything I do in everyday life. Why is it acceptable to not follow the law when we vote?"
- "I did everything right. I cast my vote legally, my vote should not be cancelled out by someone who did vote legally. We have lost the integrity of our voting process."
- Mail-in ballots are absolutely unconstitutional. Congressman Mike Kelly and Sean Parnell have filed a lawsuit saying that ACT 77 is unconstitutional. All mail-in ballots should be thrown out, ESPECIALLY mail-in ballots that did not follow the rules set in place in ACT 77.
- Let the legal process play out. What is the rush? The Pennsylvania Senate is not sworn in until early January. There is plenty of time to ensure that this election is decided following all current laws.
- There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland. The appeals process has not run out for some of the decisions in Westmoreland.
- The amount of voter irregularities that I've heard of from coworkers and friends are terrifying. Can you explain why hundreds of folks in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot?

- Voters had 50 days to send in their mail-in ballot. All they had to do was follow very simple instructions. Why should voters that clearly did not follow the standard of the law have their votes count?
- I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally.
- The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to be counted until the full extent of the appeals process has been completed. Rushing through this, to have those votes counted only further demonstrates the lengths at which democrat officials will go to win the election for their party.

Subject: Do Not Count Illegal Votes...

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

No one is above the law...is that not what we hear constantly? Why anyone would even think to want to count illegal votes is beyond me. These laws are already in place, they are not up for vote. Why do we allow a judge, any judge, to circumvent laws that are already in place is a disgrace. A judge that would overturn an existing law for the sake of party preference is a disgrace and they should be removed immediately. I want to know who these judges are so I can start a movement to have them ousted now or at their next election. Our county, our state, our country is bordering on treason from these individuals who think they are above the law...and they need to be dealt with...

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Hello,

Below are public comments for tomorrow's Board Of Elections virtual meeting at 2:00 pm. Please let me know if you need any additional things from me.

"I am perplexed by the amount of fraud surrounding the 2020 election in Allegheny County. I waited in line for over 45 minutes on a cold day to vote in person on November 3, 2020. How can Allegheny County Officials disenfranchise authentic voters, like myself, by considering to count unlawful and fraudulent mail-in ballots that are not dated? Mail-in voters had 50 days to send in their ballot and all they had to do was follow the simple instructions. Since these voters could not follow the standard of the law, why should their votes be counted?"

I am also mystified as to why Allegheny County Officials are rushing to certify these votes. Let the legal process play out. The PA Senate is not sworn in until January 2021, which gives a sufficient amount of time to ensure this election is decided following all current laws.

By counting all legal votes in Allegheny County, it is clear Nicole Zicarelli is the winner of the PA District 45 Senate race."

- Sharon Morgano, a CONCERNED Allegheny County Voter

The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to be counted until the full extent of the appeals process has been completed. Rushing through this, to have those votes counted only further demonstrates the lengths at which democrat officials will go to win the election for their party

Subject: Comments for Meeting on 11/25/2020 re: Ballots

Hello,

I am emailing in regards to the hearing that will be held tomorrow November 25, 2020.

I have the following concerns regarding the election in Allegheny County.

I am very concerned that I have to follow the law in every way but it seems that it is now acceptable to disobey the law when it comes to votes.

I also do not understand how voters had approximately 50 days to send in their mail in ballots. They had to follow the instructions as they were provided within the packet. It said clearly in the packet if you did not follow the directions your vote would not count. Now here we are almost one month into the election process and some offices have not been determined who the winner is.

Sadly the most concerning part is how the trust for our county officials is now compromised. I just do not understand how we can allow invalid ballots to be counted. Why should we have a voting process, If we allow invalid ballots to be counted get the results you want.

Thank you for considering my comments for tomorrow's hearing.

Respectfully,

Hailey Juliano
Allegheny County Resident

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

How can Allegheny County make a decision to certify the Senatorial race within the 45th district, which spans two counties when all ballots in Westmoreland County have not been counted and the legal process has not played out in full? It seems to me that the county is only concerned with the “disenfranchisement” of the mail in voters. As a voter who did not request or receive a mail in ballot, I would have been turned away if I did not show up at my polling location by 8pm on election night. What is the difference of myself showing up at 8:01 pm and an unsigned or undated ballot being rejected? We “SHALL” all be treated equally and that is not what I have seen through this 2020 election year! I have NO faith in our county officials! To hurry into this certification tells me that there is something wrong in itself! The laws were not written to benefit a select few! They were written to cover us all! You cannot bend the law to benefit a certain political party at your convenience! My vote is no lesser than an undated or unsigned mail in ballot, or is it? Because of the boards rush to certify tells me that it is.

Respectfully
Tina Vazquez
Legal voter in Allegheny County’s 45th district

To whom it may concern:

This has been a trying year for all with the changes and restrictions that had been put forth. The change to allow mail in balloting in my opinion was a mistake to start during a presidential election year.

We were told that it would be a fair system with checks and balances, Signatures, privacy envelopes, dated, and delivered by 8:00 pm on November 3, 2020.

We have had candidates work very hard on both sides of the aisle to earn their places. I would expect a fair result with all of the promised guidelines that were supposed to be in place. We are hearing almost daily about changes and adjustments to include ballots that should not be included because they did not meet the requirements. In the past, if a ballot did not meet all criteria, it would be voided. Why is the election board considering to accept non valid ballots? If the board moves forward to count more non valid ballots, how are we as citizens supposed to respect the results? I ask that you not count any ballots that do not meet all of the criteria we as voters were forced to accept as part of the mail in ballot process.

Thank you for taking the time to read my email and thank you for all of the hard work you do to keep our elections in Allegheny County fair and honest.

Best Regards,
Jeff

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I do not understand why the rush to finalize things right now without letting the proper legal process play out. There was no rush to count the votes on time, the county stopped counting at 2am and took an 8 hour break because there was no urgency. Now this is a rush to finish this without the proper due process of law. The PA Senate is not sworn in until early January. As a voter in Allegheny county I would certainly rather the board of elections take the final steps to ensure that the election results are decided by upholding all of the current laws.

Hello,

I find it unconscionable that any citizen elected to office and sworn in to uphold our constitution, would knowingly allow voter fraud. There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland. The appeals process has not run out for some of the decisions in Westmoreland. I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally.

We as American citizens have to follow the laws no matter what.....

We follow the Constitution of this Country.

We are Americans who love our Country.

We do not want SOCIALISM in our Country.

I want to know how and why the Democrats are able to get away with all the illegal votes?????

That is so wrong.....and I can bet you that all my dead relatives who are buried at Holy Souls Cemetery and Calvary have all voted and have no clue that they voted.....THAT IS WRONG.

If that is the only way the nasty Democrats can win than that is wrong.

I say along with many of my friends that we have another election with Republicans working the polls and keep that nasty voting machines they sent out with bubble paper in the closet.

When I saw that, I knew right away this was a rigged election.

How can we let those Democrats get away with this?????there is so much corruption in the Democrat party that it is disgusting.....they have put this President through hell since he got into office.....

If the Democrats get into office, we will no longer have a United Nation.....and there will never be another Republican voted into any offices because the nasty Democrats will completely take over this Country and we will be DOOMED.....

You know as well as I know that the American people have been screwed big time. President Trump has been the best President since Ronald Reagan and if we let the Democrats get away with this than shame on us.....

I have never prayed so hard in my life as I have been praying these past few weeks.

I say we send honest people into these areas to recount, not the people who counted, they are as corrupt as Nancy Pelosi and her team.

No JOE BIDEN DID NOT WIN THIS ELECTION DIRTY POLICTICS WON THIS ELECTION FOR HIM AND WE MUST FIGHT HARD SO HE DOES NOT GET INTO OFFICE.....

I am VERY concerned about the decisions being made by our county officials regarding ballots from this Election. The amount of voter irregularities that I've heard of from people I have talked to are absolutely unethical and terrifying.

Can you explain why hundreds of folks in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot? I also know of many people who took their complete ballot (with necessary envelopes) to the polling location, had it spoiled (as is correct), but then instead of them being given a regular ballot.... they were given a provisional ballot!... this is WRONG.... how many times did this happen?? Some of those have still not been shown as being received...what the heck!

I cast my vote legally, & SO many of us did everything right; MY vote should not be cancelled out by someone who did not vote legally. We have lost the integrity of our voting process. Voters had 50 days to send in their mail-in ballot. All they had to do was follow very simple instructions. Why should voters that clearly did not follow the standard of the law have their votes count? This is unlawful and unethical.

A 10 year old would understand that there are laws in place, and when those are not followed, there are consequences. What would we be teaching our children for gosh sakes! Illegal votes simply cannot slip thru the cracks and be counted. The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to

be counted until the full extent of the appeals process has been completed. Rushing through this, to have those votes counted only further demonstrates the lengths at which democrat officials will go to win the election for their party.

Thank you for your time.

To whom it may concern,

I just wanted to write to express my complete displeasure at the way the executive branch in Pennsylvania has unconstitutionally trampled on the voting system in PA. They completely exceeded their constitutional authority in unilaterally determining that there needed to be an extension of time to mail in ballots - and then went above and beyond even that in saying that undated ballots would count.

The more than 2,400 votes (as well as the ones permitted under this illegal overreach) are illegitimate votes and are illegal - they absolutely should not be counted.

Sincerely

Andrew Codelka

To the Board of Elections,

Because there is pending litigation in our lower courts, and an application for re-argument in the Pennsylvania State Supreme Court on the 2,349 undated ballots, I believe the Board of Elections should not count the undated ballots at this time.

Thomas N Papadakos

Dear Members of the Board of Elections:

The law set forth in the constitution regarding elections serve a necessary purpose, to ensure the integrity and reliability of the outcome. It is analogous to the evidentiary standards required under the law. As a party to the legal process, it is not enough to know you are right, you must prove it based upon the law and by way of evidentiary rules. There are required timelines, legislative enactments and judicial integrity necessary to enabling fairness in our legal system. Without these safeguards, there is no system. It is a system in which we hold all citizens accountable.

As Americans, we are constantly striving to improve justice and fairness for all. Without a means of ensuring these fundamentals in our constitutional and legal processes, justice and fairness cannot be achieved, ensured or advanced. Any legal scholar who attempts to justify allowing votes that clearly do not comport with our constitutional safeguards, offends and disavows their role in the legal process and the judicial system. It is an abuse of their obligation and oath to follow the legislation and laws of the land.

Like it or not, Republican or Democrat, we must maintain the integrity of our voting process in order to ensure confidence in our legal process and enable our citizens to rely on the outcome of our elections. The decision to break our clearly established voting laws and standards is a decision to knowingly disregard and break the law. Is that the example our government intends to set for its citizens?

No one is above the law, not even the justices that sit on our Supreme Court. Their partisan justifications for ignoring the law are predictable and undermine the process. There is so little respect left in our political process. Please make the decision to follow the law and set an example for the citizens of this County to follow. Do not allow this process to become further tainted by allowing ballots that cannot fairly be relied upon because they fail to include handwritten signatures, addresses or dates. Without those reliability standards, one cannot cash a check, rent an apartment, board a plane, drive a car, or, yes, provide legal petitions to enable one to run for office. How can citizens be expected to know when they can and cannot follow the law? This legal inconsistency and hypocrisy will create tremendous unrest. Please advance the integrity of our elections no matter what. There are far too many overreaching destructive consequences for our citizens in failing to do so.

Sincerely,

Kimberly Russitano, Esq.

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I'm writing to voice my amazement and displeasure with the amount of either outright fraud or total incompetence in this years election. Hundreds of thousands of PA voters have been disenfranchised by a few corrupt officials and blue counties that make their own rules and are allowed to move the goal line until they have enough votes to win. Now the state is attempting to count "votes" in the 45th district race that had no dates on them? Where did these votes come from? Who filled them out and when? This totally undermines the election in this district, the election was 3 weeks ago! It's called Election Day not election month and these ghost ballots need to be tossed out. This election cycle has been an absolute nightmare, but there is no need to pour more gasoline on the dumpster fire. Please consider doing the right thing for the sake of election integrity and verify every vote that was submitted on time, and only every vote that was submitted on time, post dated.

Thank you for your consideration!
Uphold the integrity of our elections us

I am very concerned over this counting ballots issue and am losing faith in our election process. As a retired teacher, I believe in following rules and certainly following the law. Voters had plenty of time to mail in their ballots and follow the simple instructions. Why should voters who did not follow the rules have their vote count the same that my vote counts when I followed all the rules? I feel this is dirty politics at the local level and a much bigger issue nationwide. I firmly believe these mail in ballots SHOULD NOT BE COUNTED!

As a business owner and resident of Allegheny County I have a question as it pertains to the validity of mail in ballots. If I am required to put in a bid or proposal for business, when necessary information is missing that bid is considered valid?

When a person writes a check and does not sign or date a check is considered valid or is accepted. Why is it acceptable to acknowledge legal documents if they are not properly signed or dated.

Thanks
Mike Juliano

Subject: Pending nearly 2400 mail-in ballots in AC for State Senate 45 race

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Hello Allegheny County BOE,

Please do NOT amend the certification to include the unlawful nearly 2400 Allegheny County mail-in ballots from the PA State Senate 45 race. It specifically says in the Act 77 law set by the PA legislature that the ballots must be signed and dated. These ballots were not dated, so therefore, should NOT be included in the final vote tally. This is election law set forth by the Legislature and should not be overridden or ignored due to partisan politics or whatever may be the reason.

Again, please do NOT include these unlawful ballots so we uphold our election law and not risk losing total trust of the people as well as compromising election integrity.

Thanks,

Steve Schlauch

Dems are trying to steal the election by counting ballots that are not dated. Nicole Zicarelli is the clear winner in the 45th Senate District.

Laws must be followed in ALL aspects of life why not when we vote?
We have lost the integrity of our voting process.

Mail-in ballots are absolutely unconstitutional. Congressman Mike Kelly and Sean Parnell have filed a lawsuit saying that ACT 77 is unconstitutional. All mail-in ballots should be thrown out, ESPECIALLY mail-in ballots that did not follow the rules set in place in ACT 77.

Let the legal process play out. What is the rush? The Pennsylvania Senate is not sworn in until early January. There is plenty of time to ensure that this election is decided following all current laws. There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland. The appeals process has not run out for some of the decisions in Westmoreland. The amount of voter irregularities that I've heard of from many are terrifying. Can you explain why hundreds in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot?

I am one of those voters and have filed an affidavit.

Voters had 50 days to send in their mail-in ballot. All they had to do was follow very simple instructions. Why should voters that clearly did not follow the standard of the law have their votes count?

I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally.

The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to be counted until the full extent of the appeals process has been completed. To whom this may concern;

I have been a long time voter for every local, state, and federal election in our areas since 2004. The majority of those elections that I've voted in were casted through absentee due to my military service. The instructions were clear, the process was easy, and the law was followed; the same laws that were written by very same governing bodies. The reason why we have these processes and laws is not to simply count ballots, but ensuring the integrity of our elections.

Voting in an election is a privilege of law-abiding American citizen in performing their patriotic duty and entrusting those who serve in our best interests. By allowing the undated ballots to be counted undermines that process and circumvents the very same people who entrusted you in serving them. Most importantly, you are undermining the law. You have an opportunity to make an example of how election integrity should be. You have an opportunity to keep our trust, restoring the integrity of our institutions, and upholding the law. Be that example. Thank you.

Sincerely,

Joseph Lynch
Allegheny County Registered Voter

Subject: Illegally Cast Votes

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Dear Board of Elections,

On 9/28/2020 I mailed in my LEGALLY cast ballot. On 10/14/2020 you verified as having received my LEGALLY cast ballot. Before mailing, I placed my ballot in the secrecy envelope and sealed it. I then placed the secrecy envelope in the return envelope, and sealed it. Then, per STATE LAW, I completed, signed, and dated the voter's declaration on the outer envelope. My duty was done.

Then, I come to hear that the Allegheny County Board of Elections wants to violate the very STATE LAW that I so dutifully followed in casting my ballot. I'm appalled that the AC BOE wants to nullify LEGALLY cast votes by including votes that were NOT cast in ACCORDANCE with STATE LAW. This is illegal, unconstitutional, and morally repugnant.

Suffice it to say, though I have never had much faith in our county officials, this seals the deal. By approving these ILLEGALLY cast ballots, you are telling thousands of voters that their votes can be nullified by the BOE by simply choosing to ignore the law. I will be awaiting to see if you do the right, and LEGAL, thing.

Regretfully yours,

Joe Dougherty

I don't think any unsigned or non dates ballots should be counted. People need to follow rules and I'd they can't then vote should not count. Why should my vote be canceled out by someone who can't abide by the rules. I have lost all faith in the election process.

I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally. The idea of mail in ballots i believe is inherently suspect, but to have ballots that are incomplete without dates that will be counted makes a joke of the entire process.

It is vitally important that the vote of a citizen who is known to the County Elections Board through the registration process is counted and valued.
Such a vote is de-valued when ballots of uncertain origin are also counted.

Any mail-in ballot lacking required identifying information should be disqualified.
Surely mail-in/absentee voters must meet the same standards that a person voting in-person must meet – a known registration name and address, an appropriate date, and a signature. I could not cast a vote in person without these basics being met, and a mail-in ballot should actually be required to meet an even higher standard of identification because it lacks an identifiable person.

Subject: voter irregularities

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I want to advise you of the irregularities at South Park Voting poll on Oct. 18th. This is inexcusable. I am willing to testify about this. I also have my second envelop as proof. I asked for a second ballot and ONE was given one. I had made a mistake, but they did not even ask my name. They just gave me one.

HOW MANY OTHER PEOPLE HAD MORE THAN ONE BALLOT? There is no postmark on this. I was advised to put it in a small black box that had a lock on it. I checked the records and it did not register at the county for 3 days. Who guarded it for 3 days? Where was the box? I ask that these irregularities be investigated. I have been judge of elections at my polls and I have never seen this total disregard for the voter process.

The amount of voter irregularities that I've heard of from coworkers and friends are terrifying. Can you explain why hundreds of folks in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot?

There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland. The appeals process has not run out for some of the decisions in Westmoreland.

I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally. I could go on. I did not receive mail that I should have received until after the election. This is not the way the United States should allow an election to proceed

The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to be counted until the full extent of the appeals process has been completed. Rushing through this, to have those votes counted only further demonstrates the lengths at which democrat officials will go to win the election for their party.

Dear Allegheny County Board of Elections,

As a resident of Allegheny County, I am asking that you please count only votes that followed the law. Mail-in votes that did not have a postmark, nor a signature on the envelope should NOT be counted. I followed the law when I voted. I cast my vote legally, and my vote should not be cancelled out by someone who did not vote legally. The legitimacy of mail-in ballots is in question, but those who chose this irregular process had 50 days to mail in their ballots. They simply had to follow the straightforward directions, but chose not to. It was their failure to act properly which negated the validity of their ballots. It was no one's fault but theirs!

We have lost the integrity of our voting process. I, and many fellow County residents to whom I have talked believe that there was fraud in this election, regardless of what the Governor says. To count these illegal ballots would only perpetuate our loss of faith in the system.

Thank you.

Sincerely,
Lawrence J. Gorski

Subject: Illegal Mail In Ballots

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Dear Board of Elections,

As a newly trained elections officer I was proud of the work that our team did on election day ensuring that folks who showed up to vote followed the rules. All of our electors showed up on the correct date, signed the book, presented ID when required and followed instructions. At 8 PM our team promptly closed the poll and set to work on performing the end of day responsibilities. It was a legal and secure operation that we were all proud of contributing too. That is why I was shocked to hear that the board was considering counting mail in ballots that were received in envelopes without signatures or dates. In my mind that would be the same as my team allowing someone to come into our poll the day before or after election day and vote without signing the book. I'm pretty sure it would be illegal for us to allow someone to do what I just described so it doesn't make sense to me why the board would count mail in ballots with no date or signature. I hope this is just a misunderstanding.

But, in the case that the board is actually considering counting ballots that have no signature or date please take my advice and don't do this. I'm not a lawyer but common sense tells me that if you allow these illegal mail in ballots to be counted then you will probably end up getting prosecuted and sent to jail. That would be bad enough but when I think of the 500 + people that showed up at my poll, stood in line, followed the rules and the law it seems to me that those folks would have been treated differently than the folks who submitted the illegal mail in ballots. That too is at the least unfair and probably also illegal.

Please do the right thing. We don't need any more attention in Allegheny County over what should have been a very simple and straight forward legal and ethical process. Lets not become the next Philadelphia.

Best Regards

To the Board of Elections,

DO YOUR JOB!! I worked in the Political Arena for 25 years, and between the Election of Trump and Biden, that trickled down to the Zicarelli/ Brewster election...It is ridiculous that after weeks now...The votes are still not counted. As a Registered Democrat I am highly disappointed that the individuals representing our Commonwealth cannot make sure that every vote is accounted for by at least the next day..Let alone 3 weeks!!!.Something is seriously wrong with the process, and with the individuals that are supposedly highly trained in these procedures.

I am proud supporter of Joe Biden...And the way that this has been handled is a shame....And everyone involved in the counting process should be ashamed of themselves. They obviously didnt care that this is happening!!!

Highly Disappointed!!

Subject: Implementation of PA Act 77 - Mail In Voting

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

The decision to implement Act 77 Mail In Voting during a Presidential Election totally defied common sense. This should have been introduced in an off year election to get the kinks out before attempting to do this in a Presidential election.

The process introduced was fraught with complexities and was poorly communicated to the electors. Several people complained that they did not request Mail In ballots and were strictly opposed to the concept, yet they were forced to complete a Provisional Ballot. They had no other choice and some voters were actually angry and in tears.

As Judge of Elections for Bradfordwoods Borough, this was the worst execution of an election in my 10 years of experience. While returning the election ballots and voting materials, this view was shared by several other Judges that I came in contact with. They called it total chaos.

The entire process needs to be reviewed with the objective of making improvements. Moreover, there needs to be a forensic audit to examine where claims of voter fraud and irregularities can be addressed to restore integrity of elections.

Subject: Objection to Amending the Certification of Agh Co Vote

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I object to amending the the certification of the election results for Allegheny County.

- The PA Election Code is quite clear in its allowance/dis-allowance of ballots. Amending the certification of Allegheny County vote total to allow previously disqualified ballots is illegal.
- Current litigation regarding unresolved ballots sits in the courts, from the Court of Commons Pleas to the Pennsylvania Supreme Court. In fact, an application for re-argue 2,349 undated ballots is pending in the Pennsylvania Supreme Court.
- The majority of Allegheny County voters cast legal votes, and their legitimate votes will be cancelled out by the category/ies of ballots you intend to include in the certification.
- The integrity of the November 3rd election is severely compromised, and the action of including disqualified and currently litigated ballots in the certification will destroy any confidence that may have remained.

Due to these reasons, I object to amending the certification of the Allegheny County vote total and request an audit of the November 3rd election.

Sincerely-
Diane Schmitt

Mail-in ballots are absolutely unconstitutional. Congressman Mike Kelly and Sean Parnell have filed a lawsuit saying that ACT 77 is unconstitutional. All mail-in ballots should be thrown out, ESPECIALLY mail-in ballots that did not follow the rules set in place in ACT 77.

The amount of voter irregularities that I've heard of from coworkers and friends are terrifying. Can you explain why hundreds of folks in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot?

Voters had 50 days to send in their mail-in ballot. All they had to do was follow very simple instructions. Why should voters that clearly did not follow the standard of the law have their votes count?

I have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election. My vote no longer matters because it seems like you can do anything you want and still have your vote count illegally.

The over 2,000 ballots that were not dated are ILLEGAL votes. We cannot allow them to be counted until the full extent of the appeals process has been completed. Rushing through this, to have those votes counted only further demonstrates the lengths at which democrat officials will go to win the election for their party.

This is unacceptable, and We the People will not tolerate voter / election official fraud.

I object to the amendment of the certification of the General Election. The amount of voter irregularities is terrifying. Why were hundreds of voters in Allegheny County who did not apply for mail-in ballots forced to vote by provisional ballot? I saw it myself at the poll where I worked.

Subject: Board of Elections Vote Certification

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

To Members of the Board of Elections, Allegheny County PA,

It has come to my attention that you are planning to certify additional votes from Allegheny County that clearly violate the mandate of the 14th Amendment of the Constitution of the US. This correspondence is a request that you vote no on approving to certify these votes, which violate the constitution.

The voting rules in PA changed daily, and were implemented by various persons unauthorized to make those rules. There was no hard deadline for mail-in ballot returns, no signature verification in many instances, violations of post marks and various other reports of violations. Several neighbors were required to vote on a Provisional Ballot because the county recorded a ballot request by them, which did not happen.

There were no checks and balances considered or implemented in this system. ALL ballots, both MAIL-In and In-Person should have gone thru TWO counting processes for checks and balances, just as absentee ballots were previously accounted for—once at the polls and once at the county. The in-person ballots were summarized at the polling location, then forwarded to the county for a double check. THIS SHOULD HAVE OCCURRED WITH MAIL-IN BALLOTS AS WELL. Also, the security of the ballots is questionable. They said they would be under camera security, however, it was reported that they were only under camera surveillance when they arrived at the north side warehouse.

I have been told of violations occurring at the remote county run voting locations held prior to the elections.

IT IS YOUR FIDUCIARY DUTY TO INSURE ALL ELECTIONS ARE CONDUCTED IN A FAIR AND IMPARTIAL MANNER. This CLEARLY did not happen. Why wasn't a firm that could insure accountability and prevent fraud consulted?

There is too much corruption and nepotism in the bureaucracy of government, and 'we the people' have totally lost trust in you and your actions. Your actions do not serve the best interest of all the people.

Thank you for listening and for your service.

Regards,
Jackie D.

I am writing to express my strong opposition to amending the certification of ballots to include the 2400 ballots sent without a postmark or timestamp. It is the height of absurdity to count ballots that should be considered invalid. While proponents of this ridiculous, partisan plot will attempt to claim that they are "erring on the side of enfranchisement" the reality is that they are attempting to disenfranchise voters who submitted ballots in a legal and appropriate fashion. This is nothing more than gamesmanship on the part of partisan leftists to deny victory to the rightful candidate.

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I am writing to the Department of Elections for the purposes of expressing my extreme displeasure with what is being attempted by Senator Brewster with the outcome of the election in an attempt to count illegal votes. I am irate about the amount of voter irregularity that has occurred in this election and what is being attempted here to count illegal votes..

As a former member of the United States Jaycees, the Jaycee Creed had one particular statement that is very appropriate in this case and it is as follows: "That government should be of laws, rather than of men." Senator Brewster is attempting to sway your opinion by placing himself above the law.

When I drive my car I must follow the law, which is a legal requirement. When I cast my vote I did so legally and therefore my vote should not be cancelled out by someone who voted illegally. If these votes are counted we will have lost the integrity of our voting process.

As you are aware Congressman Mike Kelly and Sean Parnell have filed a lawsuit saying that ACT 77 is unconstitutional. All mail-in ballots should be thrown out, ESPECIALLY mail-in ballots that did not follow the rules set in place in ACT 77.

I leave you with this: Americans already doubt the integrity of public officials and what has occurred in this election cycle. I am asking you not to stain this process any further.

Do the right thing. DO NOT COUNT THE ILLEGAL BALLOTS! Nicole Zicarelli was the clear winner.

Dear Sir, as a concerned citizen, tax payer and voter, I have been following the election results in the 45th district for PA State Senator.

Democrats are trying to steal this election. Before ballots that current law clearly states should be not counted because they are undated were added to this count, Nicole Zicarelli was the clear winner of the 45th Senate District. They're trying to steal this election. I have to follow the law when I drive. I have to follow the law in everything I do in everyday life. Why is it acceptable to not follow the law when we vote? I did everything right. I cast my vote legally, my vote should not be cancelled out by someone who did not vote legally. We have lost the integrity of our voting process! There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland County. The appeals process has not run out for some of the decisions in Westmoreland.

The integrity of our voting process and democracy lie in the balance. Please adhere to the law and not acquiesce to politics.

Yours Sincerely,

Jamie Petrolias

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Dear Allegheny County Board of Electors,

All of our Commonwealth and a lot of our nation will have its eyes on you on November 25 to see if you adhere to justice in making our elections fair or if you facilitate the subversion of elections by accepting illegal votes.

I worked at the polls on November 3 where hundreds of Allegheny County voters came to cast their legal ballots, and I find it reprehensible that you would even consider silencing their voices by accepting votes that cannot be properly documented and verified.

Furthermore, there is no reason that you need to try to accept these ballots of questionable timing and origin now. There is plenty of time to allow this turmoil to be sorted out by the courts that will make the ultimate determination - - plenty of time before the eventual winners of this election need to assume their seats as our representatives.

Please do not sully yourselves by trying to create a stampede to legitimize votes that are not properly documented. As a resident of Allegheny County, I do not want our wonderful home to gain the same reputation for election chicanery that has been rightfully assigned to the large urban county in the eastern end of our Commonwealth.

Respectfully,

John Wilson

Subject: Public Comments to Allegheny County Board of Elections

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Dear Bureau of Elections/Allegheny County:

Please accept my comments for the record. I would like the Bureau of Elections to consider these among the many other comments for your consideration:

- The electoral results, as they now stand, in Allegheny County is not a count of all legal votes. The County has a responsibility to uphold excellence in the electoral process. Ballots that should not be certified to include any ballots that were not lawful. This includes ballots that can't be verified as legitimate, due to missing envelopes, that will not allow for signature for verification, or undated ballots. ***The election belongs to the people and nobody has the right to hijack the electoral process and make up their own rules. It is completely unconstitutional.***
- Fraud in the electoral process is not in the best interest and reputation of those administering this race, not to mention those who have voted legally in it. If there isn't shame for what has been done in Allegheny County, then what will it take for this part of the State of Pennsylvania to set an example., and not follow the example of the City of Philadelphia and its surrounding counties, who have a historical record of stealing elections. The current Governor has always favored Philadelphia over Western Pennsylvania, Pittsburgh and Allegheny County. Does this county have to stoop that low, to follow Philadelphia fraud? Allegheny County should set a precedence for the State of PA to do things right. There is really no other option, as election fraud will follow Allegheny County when the going gets tough... ***Allegheny County must stop being a follower, and instead become a leader in Pennsylvania.***
- I have kept my eye on certain races in the State of Pennsylvania, and I have to ask why in highly Democratic precincts has it been deemed acceptable to allow these undated ballots days and weeks after the election to determine its outcome. This carries the stench of corruption, and the sacrifice is those people in those districts who need fresh and new leadership who can articulate the needs and concerns in a way that has the potential to make a difference in the future of these voting districts. I am thinking of the race of the 45th Senatorial district, in which Nicole Zicarelli was leading in this race, except that I can't help but think that the Democratic party has spent this time coming up with illegal ballots that can not be legitimized and are absolutely illegal. How can this process be trusted if the rules are not being followed? This makes no sense and is such a negative reflection on the Allegheny County Bureau of Elections; furthermore, it is a personal affront to the people in those districts, like McKeesport, who could actually benefit from a Nicole win. ***Nicole's election has been stolen right from under those people of Allegheny County. It is apostasy for the rules of a crisp and clean political process, and is completely un-American to push through with these unsound strategies to honor the ballots that can't officially stand as legitimate.***
- There is no room for hypocrisy in this election. Highly Democratic Allegheny County must for the best interest of the people who live here. Each candidate deserves to win fair and square. There is time to let this process unravel. Nothing less should be allowed or accepted. Allegheny County Bureau of Elections, please think about the constituents who live in Allegheny County, and rise to the occasion to eliminate election tampering and

fraudulent practices. Please stand apart for what really matters these days, and uphold what our founding fathers had in mind that made us what we are today, a nation of different people who have the most important things in common. **At the end of the day, We are all Human Beings, and we are all Americans. Halt all dishonest practices and bring back integrity to the electoral process, so that we can all be truly proud of the place that we live.**

I am disappointed at county officials that they chose to roll out the DS2000 in a Presidential election, when surrounding counties implemented new voting machines in previous years. The training for the machines and processes was severely inadequate. That was on clear display after the polls closed and the volume of people that had not properly completed the closing of the polls at the drop off location.

Dear Members of the Board of Elections,

Please delay the certification of the election. Give the legal process time to play out. There is plenty of time to ensure that this election is decided following all current laws.

Sincerely yours,

Sue Means

Dear All,

The nearly 2400 pending mail-in ballots are actually unlawful ballots. It specifically says in Act 77 set by the PA Legislature that mail in ballots must be signed and dated. These ballots were not dated, so therefore should not be included in the final vote count.

ATTENTION: Allegheny County Board of Elections

The ballots cannot be certified until the full extent of the court appeals process is completed. Over 2,000 General Election ballots were not date stamped or signed and are ILLEGAL votes. The Allegheny County Board of Elections is rushing through the certification process. Any provisional, mail-in, and/or absentee ballot is deemed disqualified and must be marked VOID, if the voter failed to follow the election laws outlined in the PA Election Code (ACT 77). Please do not certify. A review of PA 77 is provided within the following sections of the code:

Section 1210:

(5) * * * (ii) A **provisional ballot shall not be counted if:**

- (A) either the provisional ballot envelope under clause (3) or the affidavit under clause (2) is **not signed** by the individual;
- (B) the signature required under clause (3) and the signature required under clause (2) are either not genuine or are not executed by the same individual;
- (C) a provisional ballot envelope **does not contain a secrecy envelope**;
- (D) in the case of a provisional ballot that was cast under subsection (a.2)(1)(i), within six calendar days following the election the elector fails to appear before the county board of elections to execute an affirmation or the county board of elections does not receive an electronic, facsimile or paper copy of an affirmation affirming, under penalty of perjury, that the elector is the same individual who personally appeared before the district election board on the day of the election and cast a provisional ballot and that the elector is indigent and unable to obtain proof of identification without the payment of a fee; [or]
- (E) in the case of a provisional ballot that was cast under subsection (a.2)(1)(ii), within six calendar days following the election, the elector fails to appear before the county board of elections to present proof of identification and execute an affirmation or the county board of elections does not receive an electronic, facsimile or paper copy of the proof of identification and an affirmation affirming, under penalty of perjury, that the elector is the same individual who personally appeared before the district election board on the day of the election and cast a provisional ballot[.];

Section 1302.1

(8) **No absentee ballot** under this subsection **shall be counted** which is received in the office of the county board of elections **later than [eight o'clock P.M. on the day of the primary or election]** the deadline for its receipt as provided in section 1308(g).

Section 1303. Official Absentee Voters Ballots

(e) The official absentee voter ballot shall state that a voter who receives an absentee ballot pursuant to section 1301 and whose **ballot is not timely received and who, on election day, is capable of voting at the appropriate polling place [must void the absentee ballot and vote in the normal manner at the appropriate voting place] may only vote on election day by provisional ballot.**

Section 1305. Del

Section 1306. Voting by Absentee Electors.--(a) Except as provided in paragraphs [(1),] (2) and (3), at any time after receiving an official absentee ballot, but on or before [five o'clock P.M. on the Friday prior to] eight o'clock P.M. the day of the primary or election, the elector shall, in secret, proceed to mark the ballot only in black lead pencil, indelible pencil or blue, black or blue-black ink, in fountain pen or ball point pen, and then fold the ballot, enclose and securely seal the same in the envelope on which is printed, stamped or endorsed "Official Absentee Ballot." This envelope shall then be placed in the second one, on which is printed the form of **declaration of the elector**, and the address of the elector's county board of election and the local election district of the elector. **The elector shall then fill out, date and sign the declaration printed on such envelope.** Such envelope shall then be securely sealed and the elector shall send same by mail, postage prepaid, except where franked, or deliver it in person to said county board of election. [(1) Any elector who submits an E

Section 1303-D. Official mail-in elector ballots.

(e) Notice.--The official mail-in voter ballot shall state that a voter who receives a mail-in ballot under section 1301-D and whose **mail-in ballot is not timely received may only vote on election day by provisional ballot.** Section 1304-D. Envelopes for official mail-in ballots.

(a) Additional envelopes.--The county boards of election shall provide two additional envelopes for each official mail-in ballot of a size and shape as shall be prescribed by the Secretary of the Commonwealth, in order to permit the placing of one within the other and both within the mailing envelope. On the smaller of the two envelopes to be enclosed in the mailing envelope shall be printed, stamped or endorsed the words "Official Mail-in Ballot," and nothing else. On the larger of the two envelopes, to be enclosed within the mailing envelope, shall be printed the form of the declaration of the elector and the name and address of the county board of election of the proper county. The larger envelope shall also contain information indicating the local election district of the mail-in voter.

(b) Form of declaration and envelope.--The form of declaration and envelope shall be as prescribed by the Secretary of the Commonwealth and shall contain, among other things, a statement of the elector's qualifications, together with a statement that the elector has not already voted in the primary or election.

(c) Mailing envelope.--The mailing envelope addressed to the elector shall contain the two envelopes, the official mail-in ballot, lists of candidates, when authorized by section 1303-D(b), the uniform instructions in form and substance as prescribed by the Secretary of the Commonwealth and nothing else.

(d) Notice.--Notice of the requirements under section 1306-D shall be printed on the envelope for the mail-in ballot.

Section 1305-D. Delivering or mailing ballots. The county board of elections, upon receipt and approval of an application filed by a qualified elector under section 1301-D, shall commence to deliver or mail official mail-in ballots as soon as a ballot is certified and the ballots are available. **While any**

proceeding is pending in a Federal or State court which would affect the contents of any ballot, the county board of elections may await a resolution of that proceeding but in any event, shall commence to deliver or mail official absentee ballots not later than the second Tuesday prior to the primary or election. For applicants whose proof of identification was not provided with the application or could not be verified by the board, the board shall send the notice required under section 1302.2-D(c) with the mail-in ballot. As additional applications are received and approved, the board shall deliver or mail official mail-in ballots to the additional electors within 48 hours.

Section 1306-D. Voting by mail-in electors. (a) General rule.--At any time after receiving an official mail-in ballot, but on or before eight o'clock P.M. the day of the primary or election, the mail-in elector shall, in secret, proceed to mark the ballot only in black lead pencil, indelible pencil or blue, black or blue-black ink, in fountain pen or ball point pen, and then fold the ballot, enclose and securely seal the same in the envelope on which is printed, stamped or endorsed "Official Mail-in Ballot." This envelope shall then be placed in the second one, on which is printed the form of ***declaration of the elector***, and the address of the elector's county board of election and the local election district of the elector. ***The elector shall then fill out, date and sign the declaration printed on such envelope.*** Such envelope shall then be securely sealed and the elector shall send same by mail, postage prepaid, except where franked, or deliver it in person to said county board of election. (a.1) Signature.--Any elector who is unable to sign the declaration because of illness or physical disability, shall be excused from signing upon making a declaration which shall be witnessed by one adult person in substantially the following form: I hereby declare that I am unable to sign my declaration for voting my mail-in ballot without assistance because I am unable to write by reason of my illness or physical disability. I have made or received assistance in making my mark in lieu of my signature. (Mark) (**Date**) (Complete Address of Witness) (Signature of Witness) (b) Eligibility.--

(1) Any elector who receives and votes a mail-in ballot under section 1301-D shall not be eligible to vote at a polling place on election day. The district register at each polling place shall clearly identify electors who have received and voted mail-in ballots as ineligible to vote at the polling place, and district election officers shall not permit electors who voted a mail-in ballot to vote at the polling place.

(2) An elector who requests a mail-in ballot and who is not shown on the district register as having voted may vote by provisional ballot under section 1210(a.4)(1).

Respectfully
Elizabeth Conway

Dear Sir/Madam,

I would like to publicly comment about the goal to steal this election from the voters. I legally cast my vote, and my vote is being negated by voters who did not comply with the basic instructions regarding mail in ballots. This is unfair and should not be allowed.

I have to follow the law on a daily basis. And yet, Democrats who did not obtain enough votes to win legitimately are trying to steal this election from voters who did follow the rules. Nicole Zicarelli was the clear winner of the 45th Senate District. Now, having not garnered enough votes legitimately, they are trying to add in ILLEGAL votes. We know there is fraud. And by continuing down this path, we will lose even more faith in our democracy.

We send people to OTHER countries to ensure their voting is fair; and yet, we seem to be OK with unfair voting in our own country. We are NOT a banana republic. But Pennsylvania, and Pittsburgh and Philadelphia specifically, are known GLOBALLY as corrupt. I've read newspapers in other countries and cringe when I see our state maligned. We deserve it.

We have lost complete trust in our county officials. How can we allow massive amounts of fraud to decide our election? My vote, cast LEGITIMATELY, no longer matters since it seems you can do anything you want and still have your vote count illegally. Let's stop the corruption here and now. Do the right thing and invalidate those bogus ballots!

Thank you!

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Allegheny county & Pennsylvania should be embarrassed by the sham election conducted on 11/3/20. My blood boils over the way this election was stolen from President Trump & Sean Parnell. But I guess this wasn't good enough for the greedy cheating Democrats, so they are now stealing a clear cut win from Nicole Zickeralli. I canvassed 500 homes in Plum in support of Nicole, so I have a vested interest in her going to Harrisburg. It is shameful to allow all these invalid mailin ballots. They are the easiest for fraud and lack verification. People can go to Walmart, Lowe's, Home Depot but they can't make it to the polls on Election Day. I'm calling BS and it better go back to having a good excuse to vote absentee. Should b in person unless u have doctor excuse. Should also have photo identification.

Nicole won and Brewster knows it.

Dear Sir or Madam-

As Congressmen Mike Kelly and Sean Parnell outlined in their lawsuit, ACT 77 is unconstitutional. All of these mail-in ballots should be tossed, Specifically the mail-in ballots that did not follow the rules set in place by ACT 77. Thank you for the opportunity to be heard.

Sincerely

Tony Surman Jr.

I have lost confidence in the election process. Not allowing Republicans to view vote counting means the Democrats had intent and opportunity to steal the election. Why else?

Mail in ballots are likely fraudulent unless there is signature verification , timely receipt verified by postmarks AND the county can be counted on to mail ballots out on a timely basis.

A ballot is a legal document and to not require a valid signature in absurd, irresponsible and tacit approval of cheating, nothing less.

It grieves me that the federal postal workers in Erie were instructed to backdate ballots and not distribute republican mail. Did this happen in Allegheny county as well.

When Democrat and republican voters in the same family sent in ballot request on the same day, why did the Democrats get their ballots on a timely basis and the republicans not get their ballots in time to vote? There appears to have been a lack of impartiality in our county.

With the blocking of republican poll watchers for mail in ballots, ridiculous rules on the state level to accept undated ballots with no signature verification, partiality on the part of county workers, and cheating on the part of the US postal service in Pennsylvania, ALL mail-in ballots in Pennsylvania should not be counted.

It appears the state lacked solid internal controls for ballots as the public was not told the number outstanding the day of the election. It leads me to believe many were generated after the in-person votes came in on Election Day.

The legal mail in ballots likely reflect the in person ballot candidate choices.

The enthusiasm level for Biden was non existent as evidenced by the small crowds he could attract.

I firmly believe Trump won the Pennsylvania presidential election this month. To deny this win is criminal. Likewise, I believe Sean Parnell won the position of US congressman.

May all who contributed to this theft and fraud be punished severely.

Winning an election by theft should not be tolerated or permitted in our nation.

The amount of voter irregularities that I've heard of from coworkers and friends are terrifying. Can you explain why hundreds of folks in Allegheny county that did not apply for a mail-in ballot were forced to vote by provisional ballot? This is outrageous and breaks fundamental auditing integrity rules.

Subject: Voter Fraud

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

I am writing this email to voice my displeasure in the recent election process. On November 3rd, I and thousands of other Allegheny County residents cast their vote for the candidate of their choosing and expected that their vote would be counted. There was also the expectation that the election would follow all of the rules and guidelines established so that it would be a fair election however, many Pennsylvania officials have decided that suddenly the rules don't apply or maybe can follow the rules in the next election..? This is absurd.. The rules are set in place and if changes need to be made, they need to be addressed after the election and not while votes are still being counted. While I believe that voting should be done in person when at all possible, I know that exceptions need to be made for military personnel, people with health conditions etc. but that doesn't mean that rules suddenly need to be abandoned. When you vote via absentee ballot, the ballot needs to be signed and dated and also needs to arrive by a certain date and if these rules aren't followed, the ballot should be voided. I can't think of any other time that when a rule is broken, the law is changed to assist the violator and it shouldn't happen here either.

I appreciate your time and hope you will make the right decision by only counting those votes that are on time and done within the rules already established.

Thank You

Leo Johe

Dear Sir, As a concerned citizen, tax payer and voter, I have been following the election results in the 45th district for PA State Senator.

Democrats are trying to steal this election. Before ballots that current law clearly states should be not counted because they are undated were added to this count, Nicole Zicarelli was the clear winner of the 45th Senate District. They're trying to steal this election. I have to follow the law when I drive. I have to follow the law in everything I do in everyday life. Why is it acceptable to not follow the law when we vote? I did everything right. I cast my vote legally, my vote should not be cancelled out by someone who did not vote legally. We have lost the integrity of our voting process! There is pending litigation from the court of commons pleas all the way up to the Pennsylvania supreme court. There is still an application for re-argument pending in the state supreme court on the 2,349 undated ballots. There are still votes to be counted in Westmoreland County. The appeals process has not run out for some of the decisions in Westmoreland.

The integrity of our voting process and democracy lie in the balance. Please adhere to the law and not acquiesce to politics.

Yours Sincerely,

Anthony Zaras
