EXHIBIT NO. 1

CIVIL PENALTY DETERMINATION AND CALCULATION

PURPOSE: The primary purpose for assessing civil penalties is to deter future violations not only at the specific facilities that are involved in the enforcement actions taken by the Department, but also at all the facilities within Allegheny County that are subject to the Article XXI regulations. In order to achieve the goal of deterrence, a civil penalty should remove any significant economic benefit resulting from noncompliance and include an amount beyond recovery of the economic benefit to reflect the seriousness of the violation.

CIVIL PENALTY FACTORS: The ACHD has determined the civil penalty to be in accordance with Article XXI, § 2109.06.b, reflecting relevant factors including, but not limited to: the nature, severity and frequency of the alleged violations; the maximum amount of civil and criminal penalties authorized by law; the willfulness of such violations; the impact of such violations on the public and the environment; the actions taken by the violator to minimize such violations and to prevent future violations; and the violator's compliance history.

CIVIL PENALTY FORMULA: The following calculation is used to assess the civil penalty:

$$\text{Civil Penalty} = (\text{Gravity Based Component} \times \text{Adjustment Factor}) + \text{Economic Benefit} + \text{Cost to the Department} + \text{Additional Deterrent Penalty}$$

Gravity Based Component: A gravity based component reflects the potential harm that the violation may have on the public or environment and the severity of the violation.

Adjustment Factor: The gravity based component may be adjusted for factors and circumstances unique to the violator. These adjustment factors include the violator's degree of cooperation with the ACHD during the investigation, the compliance history of the violator, the degree of willfulness that violator exhibited with regard to the violation, the size of the violator, and whether the violator is a Title V source or a Synthetic Minor source.

Economic Benefit: This component is a measure of the economic benefit gained by the violator as a result of noncompliance with the regulatory, statutory, or permit requirements.

Cost to the Department: Extra monetary costs for the investigation and preparation of the case, such as source sampling costs and laboratory costs, may be identified and added to the adjusted civil penalty.

Additional Deterrent Penalty: An additional deterrent penalty may be assessed if justified by the circumstances of the case.

CIVIL PENALTY CALCULATION

A. Gravity Based Component

Violation	Gravity Based Penalty	Violation Days	Total Gravity Penalty
Late submittal of Certificate of Compliance (§2103.12.h.5)	\$900.00	1	\$900.00
	\$		\$
	\$		\$
	\$		\$
Gravity Component Total			\$900.00

B. Adjustment Factors	Factor	Adjustment Amount
