To all submitting agencies,

To date, there have been no comparison requests for the projectile(s) submitted in this incident. In addition, the Firearms Section does not enter projectiles into any database (NIBIN). Therefore, the projectile(s) submitted to the Firearms Section will be returned to the investigating agency, unexamined. If analysis is required in the future, the evidence may be resubmitted to the laboratory under the same case name and laboratory case number. Please contact Firearms Manager Ray Everett (412) 350-4532, raymond.everett@alleghenycounty.us for any inquiries.

Sincerely,

A handwritten signature in blue ink that reads "Mandy Tinkey".
