Pilots of New Approaches to Summer Food Service Program for Children

April 22, 2016

1) My organization has some potential partners who are already listed on IFB- 7711. Can these agencies become part of the pilot project if our proposal is accepted? One of them is a school for whom we already provide breakfast, lunch, after-school snacks, and dinner during the school year.

The pilot may not involve feeding children at sites that are already listed on IFB-7111. Ideas for pilot projects involving providing nutrition education, cooking demonstrations or other activities at sites listed on IFB-7111, for example, are welcome.
