

## **AmeriCorps KEYS participates in 2017 Western Pennsylvania National Service Launch**

On October 27, 50 AmeriCorps KEYS (Knowledge to Empower Youth to Success) members joined national and state service programs from all over Western Pennsylvania to celebrate the power of national and community service at the National Service Launch.

“This event allowed our members to see that they’re part of something bigger than themselves. AmeriCorps is not just limited to Pittsburgh – we’re making an impact at a regional, statewide and national levels,” said Jamie Walker, KEYS Service Corps assistant program director. “We are thrilled that this event allowed our staff and members to expand networks and increase collaboration so that we can better serve our region.”

The launch was attended by approximately two hundred representatives from national and state service programs including AmeriCorps, Senior Corps and VISTA.
