Kudos: Tyler Connifey

An attorney sent an email recognizing Tyler Connifey, resource specialist supporting the Magisterial District Judges, for his exceptional efforts.

While in court, it was requested that the attorney's client be properly assessed due to the nature of the charges. Tyler immediately intervened and provided the client with a copy of the 2018 - 2019 Directory of Mental Health & Drug & Alcohol Services.

"I was astounded at how astute and observant Tyler was in immediately recognizing the service needs for my client. He was very kind and professional, and his timing could not have been more perfect. Tyler also immediately e-mailed me a copy of the directory so I was able to provide this critical directory to my colleagues when I returned to my office."

The author concludes, "It is apparent to me that Tyler has had great training which always evolves from committed leadership. Congratulations on the success that you and your team are achieving in our communities. Please thank Tyler for being there for my client and [me]."
