New Medicaid Rules Coming Soon

Get Ready Now to Ensure You Keep Your Health Coverage!

Starting January 1, 2027, some adults 19-64 will need to renew their Medicaid every six months and prove that they meet new work requirements to keep Medicaid.

What Should I Do Next?

First, check if you meet one of these requirements for at least one month before your next renewal date in 2027:

- Earn at least $580 for one month
- Volunteer or do job training for 80 hours for one month
- Go to school at least part-time

Unable to Meet Work Requirements? You May Be Exempt.

Many people will be exempt from requirements if you are unable to work due to health, have a child under 14, or other accepted reasons. For the full list scan the QR code. You will need to tell the County Assistance Office about this exemption at your next renewal date in 2027.

Confused? Start Here

These organizations can explain the work requirements and help you complete applications and renewals:

- Pennsylvania Health Access Network (PHAN): 877-570-3624 pahealthaccess.org
- Fabric Health: 215-792-3453 fabrichealth.org/
