

Allegheny County Health Department

Sexual Health Clinic

FREE HIV/STI Testing & Treatment

The Allegheny County Health Department Sexual Health Clinic provides free STI/HIV testing and treatment. We offer services via both walk-ins and appointments.

To schedule an appointment call 412-578-8081.

- Walk-in patients seen on a first come, first served basis.
- No insurance is necessary.
- Anyone 13 years and older can be seen at the clinic without parental consent.
- Patients seen regardless of immigration status.

Patients are asked to bring photo ID (i.e. driver's license, passport, college ID) when being seen. Patients can be seen without a photo ID, though a photo ID is required to receive results.

Language line services are available for a variety of languages. An on-site interpreter can be scheduled with advance notice.

If you are having symptoms additional testing may be offered. Patients diagnosed with HIV will receive referrals for medical care.

**Know your
status.**

Get tested.

Sexual Health Clinic Services:

- Expedited Partner Therapy (EPT)
- DoxyPEP for bacterial infections

Can't make it to the Clinic? Order a free at-home test kit!

The Allegheny County Health Department Sexual Health Clinic partners with Lumba to offer free, confidential at-home testing for HIV, syphilis, chlamydia, and gonorrhea. Test kits are available to any resident of Allegheny County that is age 16 or older, regardless of income or insurance status. Test kits generally arrive in 5-7 business days and results are delivered online within 2-5 business days of return. Residents needing treatment will be referred for medical care.

Residents with negative tests but who are still experiencing symptoms should be evaluated by a healthcare provider in person. Residents can order a new test kit after 3 months but must use any kits they have already ordered before requesting another one.

Visit <https://lumba.health/achd>

to learn more and order your kit today!

**NO SHAME.
NO STIGMA.**

Condom Distribution

The Allegheny County Health Department can provide free safer sex supplies (various types of male condoms, female condoms, dental dams, and lubricant) to individuals or organizations who request them. The condom distribution program provides condoms and literature to communities and agencies throughout Allegheny County. If you are interested in learning more about the program or receiving free safer sex supplies through our Condom Distribution Program, please contact CDP@AlleghenyCounty.us

Partner Services

Allegheny County Health Department staff may contact sexual partners to encourage them to come in for free HIV/STI testing and treatment. This is a voluntary service for anyone diagnosed with a reportable STI. Staff members do not reveal any identifying information about the patient while informing their partners about a potential exposure. Partner notification works to reduce the spread of HIV/STIs in Allegheny County.
