**Consumer Products - State Implementation Plan (SIP) Revision for the 8-Hour Ozone National Ambient Air Quality Standard (NAAQS)**

**Summary of Action**

ACHD is incorporating by reference the Pennsylvania Department of Environmental Protection’s (DEP) Air Pollution Control Act at 25 Pa. Code §§130.201-130.471, Consumer Products. This regulation controls the VOC content of consumer products for sale in the state of Pennsylvania in order to reduce VOC levels, and by extension ozone levels, throughout the Commonwealth. By incorporating this regulation, ACHD will have the authority to request information on volatile organic compound (VOC) levels in consumer products that are listed in PA DEP’s Air Pollution Control Act at 25 Pa. Code §§130.201-130.471 for sale in Allegheny County, to ensure that products do not exceed accepted VOC levels. All information on consumer products sought under this regulation shall be subject to ACHD’s preexisting Confidentiality regulations, Article XXI §2101.07.d.4. All consumer products seeking a variance from the regulation must submit to the Pennsylvania DEP, as variances will not be handled by ACHD in order to remain consistent across the Commonwealth. This regulation will be incorporated into Allegheny County's portion of the Pennsylvania's SIP, making it federally enforceable.
PART E - SOURCE EMISSION AND OPERATING STANDARDS

Code §§130.201-130.471 which are hereby incorporated by reference into this Article. Additions, revisions, or deletions to such regulation by the Commonwealth are incorporated into this Article and are effective on the date established by the state regulations, unless otherwise established by regulation under this Article.
