SUPPLEMENTARY INFORMATION:

I. Background

On June 25, 2012, PADEP submitted to EPA a revision to the Allegheny County portion of the Pennsylvania SIP. The SIP revision seeks to add Section 2105.88—Consumer Products from ACHD’s Rules and Regulations, Article XXI, Air Pollution Control to incorporate by reference 25 Pa. Code sections 130.201–130.471 (Consumer Products) of PADEP’s Air Pollution Control Act. This regulation controls the volatile organic compound (VOC) content of consumer products for sale in the Commonwealth of Pennsylvania in order to reduce VOC levels.

II. Summary of SIP Revision

The Pennsylvania SIP revision adds section 2105.88 from ACHD Rules and Regulations, Article XXI, Air Pollution Control to incorporate by reference Pennsylvania’s regulation for consumer products promulgated under the Air Pollution Control Act at 25 Pa. Code sections 130.201–130.471. The incorporation by reference provides that section 2105.88 shall be applied consistent with the provisions of Pennsylvania’s regulation for consumer products. Any additions, revisions, or deletions to the consumer products regulation by Pennsylvania shall be incorporated into section 2105.88 and are effective on the date established by Pennsylvania regulations. The addition of section 2105.88 to ACHD Rules and Regulations provides ACHD the authority to request information on VOC levels in consumer products that are listed in 25 Pa. Code sections 130.201–130.471 for sale in Allegheny County to ensure that products do not exceed accepted VOC levels, establishes that all information on consumer products sought under section 2105.88 shall be...
subject to ACHD’s preexisting confidentiality regulations, and establishes that all consumer products seeking a variance from section 2105.88 must submit all variance requests to PADEP.

III. Final Action

EPA is approving the Pennsylvania SIP revision that incorporates by reference Pennsylvania’s consumer products regulations into ACHD Rules and Regulations, Article XXI, Air Pollution Control. EPA’s review of the SIP revision submitted by PADEP on June 25, 2012 indicates it will strengthen the SIP requirements, result in reductions of VOC, and meet all applicable Federal regulations and the CAA. EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comment. However, in the “Proposed Rules” section of today’s Federal Register, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision if adverse comments are filed. This rule will be effective on January 28, 2013 without further notice unless EPA receives adverse comment by December 31, 2012. If EPA receives adverse comment, EPA will publish a timely withdrawal in the Federal Register informing the public that the rule will not take effect. EPA will address all public comments in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

IV. Statutory and Executive Order Reviews

A. General Requirements

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States, EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 28, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action approving the incorporation by reference of Pennsylvania’s consumer products regulations into ACHD Rules and Regulations, Article XXI, Air Pollution Control may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
